VICTORIA COUNTRY CLUB MEET IS A SUCCESS

This is pleasurable; it shows the great interest taken in British Columbia in good horseflesh and a clean, manly sport. The most perfect type of race horses, and well set up, are to be seen daily on the Willows track. Victorians are satisfied and the stranger within our gates is delighted that our beautiful city is not so dead as it is painted, and he goes away smiling and declaring that he has seen "The best race ever run, sir." Cheers go up for the favorite and afterwards on the "home stretch," G. H. Mumm and Co.'s champagne proves an easy first. Nothing so fit as Mumm's Selected Brut or Extra Dry to drink to the health of the winner. Speaking of champagnes, the rest of the field never have a chance to be in the money. It is "Mumm's," "Mumm's" all the time with the class of people who drink champagne, because this class must have the best procurable.

PEACE KEPT BY REPRESSION

Conditions in Spain Show Improvement Only on Surface

NEWSPAPER REPORTS CLOSELY CENSORED

One Estimate of Victims in Barcelona Gives Number at 5,000

Paris, Aug. 2.—The internal situation in Spain tonight seems to be improved. Barcelona has emerged from her isolation, and the threatened general strike in Madrid appears to be averted, at least temporarily.

The first train out of the Catalonia capital city since the beginning of the tragic events reached the frontier tonight, bringing censored and plainly inexact newspaper accounts of the insurrection and of the conditions in the outlying parts of Catalonia. The rest is shrouded in mystery. Several of the smaller cities are reported to be in the hands of the revolutionists and many villages have proclaimed the district a republic. Troops are being steadily distributed throughout the rebellious district, and barring new serious outbreaks, the insurrectionists eventually will be forced to capitulate.

It is said that the authorities are determined to crush the insurrection before the return from South America of Alejandro Leroux, chief of the republicans at Barcelona, whose period of exile for political reasons was set aside by the chamber of deputies last April. Reports from San Pelayo, Palamos and Casade La Solva say that these places are still in the hands of the revolutionaries.

In striking contrast with the estimate of the victims of the disorders given by the Barcelona newspapers is one of 5,000, emanating from private advice received from Madrid. This later estimate, however, is labelled "Perhaps exaggerated."

An official statement issued in Madrid tonight concerning the proposed general strike there says that numerous masons failed to report for duty today, but it is explained that this was due to fear of a clash with the unionists.

Spain's censorship tonight is more inexorable than ever. No news has been received from the various points in the north where the trades unions had planned a general strike for today.

Madrid, Aug. 2.—According to official despatches received here last evening, the situation at Melilla remains unchanged.

Republic Proclaimed. Paris, Aug. 2.—A special despatch received here from Cerbere relates the previous reports that a number of communes in Catalonia have proclaimed a republic, and declares that the municipality of Palamos has declared that city to be free and independent.

Destruction by Mob. Cerbere, France, Aug. 2.—The first train out of Barcelona since the troubles began there arrived here tonight, bringing copies of newspapers. After pointing out that their accounts of the fighting at Barcelona had been censored, the papers published a list of 35 churches and convents which burned between July 26 and July 30. After July 28, Civil Governor Gallardo resigned, turning over his power to Capt. General Santiago. In the first disorders, losses of the army were three men killed and 27 wounded, while 75 civilians were buried and 127 wounded placed in hospitals. The papers say that the number of wounded prisoners in the Mount Juich fortress on July 29 was 204 and on July 30, 182.

Bombarding Mount Geurga. Madrid, Aug. 2.—Mount Geurga, the Moorish stronghold, is being constantly bombarded by the Spanish artillery. A despatch received from Alilemas, an island fortress and prison settlement belonging to Spain, on the Moroccan coast, says the Moors have opened a rifle fire on the town.

To Protect British Interests. London, August 2.—A despatch from Gibraltar says the British cruisers Lancaster and Suffolk, together with four torpedo boat destroyers, have sailed for Moroccan waters.

Strike Not Materialized. Madrid, Aug. 2.—Morning dawned without incident, although this was the day set by the labor leaders for the declaration of a general strike. The city was quiet, almost ominously so, and as the forenoon wore away the tension became great. At this moment there has been no report of an alarming nature and although the danger of an outbreak on the part of the socialists and working classes is by no means past, the belief is prevalent that the precautions taken by the Government to prevent a strike, have been successful.

The Government took drastic steps to head off such a movement as was threatened. Many of the Socialist leaders were thrown into jail when their attitude became suspicious and the officials would not entertain requests for their release. As a result, some of the republican leaders and deputies declared that they would hold meetings of protest against the Government's action. Several meetings of this nature were held this morning and in some instances were dispersed by the police but none developed serious consequences.

Two editors of socialist newspapers were arrested today because of their incendiary writings.

At Melilla the Moors are preparing again to attack the Spanish position,

and the tension is high. Much will depend upon the outcome of the engagement that is brewing for it is known here that General Marina has orders to wait until the big army drawn from all parts of the Riff coast is concentrated and then to assume the offensive and strike a decisive blow. This will entail a sally out of Melilla and at the very least it means terrible fighting. Young men of prominent birth here are offering their services to form Rough Rider corps for active service against the Moors and it is likely that the offers will be accepted.

The Government has taken every precaution to guard against the general strike that is threatened here today. Wounded Suffer. San Sebastian (via the frontier), Aug. 2.—Further particulars received here regarding the situation at Melilla say the arrangements for caring for the wounded are most deplorable. There are but a few doctors on the scene, and medicines, surgical instruments and other appliances are almost entirely lacking. During the fighting of July 27, the staff of General Marina, the commander of the Spanish forces, was decimated and some companies lost half their strength and three-quarters of their officers. All reports speak of the bravery of the men and officers, but dwell upon the stupidity of the antiquated tactics employed, and the disorganization of the commissariat.

LOCK-OUT OF MAGNITUDE

Eighty Thousand Men Are Now Affected by Disastrous Industrial Situation in Sweden.

Stockholm, Aug. 2.—The labor conflict in Sweden originating in a dispute over wages in the woollen and cotton industries, is today assuming large proportions. In the beginning, 13,000 men were locked out, and other industries since have become involved until today the Employers' Federation declared a lockout of the iron factory hands, numbering about 30,000 men. This brings the total of the men locked out to 80,000. A general strike is threatened for August 4.

MEN ON TRIAL AT GLACE BAY

Accused of Attempting to Blow Up House of Manager Simpson

Glance Bay N. S., Aug. 2.—Today's interest in the strike town centered in the trial of Mackenzie and Ross on the charge of complicity in the blowing up of Manager Simpson's house at Reserve. The witnesses examined were Morrison, a surveyor, who submitted a plan of the locus, Constable McNell, Kenneth Ferguson and Manager Simpson.

Manager Simpson gave evidence as to the condition of the house, and identified a portion of a wrapper or paper box which had contained a high explosive called exallite. It is put up in five-pound packages, which contain six-ounce cartridges, or thereabouts. This explosive is used in the mine for pillar and stone work. It is used largely by the brushers, who are the men who remove the roof to give sufficient height over the roadways.

The court adjourned till tomorrow, when other witnesses will be examined.

CHINESE HOLD-UP

Attempted Robbery of White Man in Vancouver—Alleged Thug Taken Into Custody.

Vancouver, Aug. 2.—Joe Jim Choy, a Chinaman who was captured on east Pender street late Saturday night, following a desperate chase in which detectives and private citizens engaged, was committed for trial by Magistrate Williams this morning, following a preliminary hearing on a charge of attempting robbery.

Allan Goodfellow was walking home about 11.15 Saturday night, when he says Choy accosted him, and asked him if he wanted to gamble. Goodfellow said he was inquisitive enough to follow the Chinaman into an alley off Pender street, near Westminster avenue, and when the darkness of the alley enveloped him was set upon by Choy, who fell him with a blow on the neck. Choy put his hand in Goodfellow's pocket, the latter testified, but couldn't get his hand out again after it was closed over a handful of bills. Goodfellow clung desperately to his assailant, all the while shouting for help, and the police at the top of his voice.

Finally the Chinaman, who is a strong, tall man, broke away and ran towards the heart of Chinatown closely pursued by his victim, who continued to call for the police. By the time Detectives Scott and McDonald joined the chase a large crowd of whites was pursuing the Chinaman. The detectives soon overhauled him and took him to jail.

Ambassador Bryce to Speak

St. John, N. B., Aug. 2.—Right Hon. James Bryce, British ambassador, will be the next speaker at the Canadian club in this city. He will probably be here within two weeks. The provincial government will extend hospitality to the ambassador.

Little Boy Burned

Carso, N. S., Aug. 2.—A distressing accident occurred here this afternoon, when a three-year-old boy, Clarence, son of Harry Panning, was burned to death. Leaving the little boy with some other children playing about the door, his mother went to the well nearby for water. In their play some of the older ones kindled a fire, and while the children were playing about it, the little boy's dress caught fire, and was quickly in a blaze. The frantic screams of the lad were heard at a great distance, but help arrived too late to save the little fellow's life.

OBJECTIONS BY SENATORS

First Day's Consideration of Conference Report Shows No Progress

LEATHER SCHEDULE DIFFICULT POINT

President Taft Endorses Language of Report Regarding Compromise

Washington, Aug. 2.—Beginning its consideration of the conference report bill by a tedious reading of that document, which was insisted upon by Senators who proposed to see that undue haste is not exercised in the final passage of that measure, the senate dragged along nearly seven hours today without accomplishing anything important. Numerous conferences were held among senators on both sides of the chamber for the purpose of advancing or hindering the final passage of the bill.

The developments which have occurred in respect to the framing of the leather schedule in conference called forth more interest than did the proceedings of the day. Senators spent much time discussing the language and effect of that schedule.

The debate on the conference report was opened by Senator Daniel, who claimed that the Democratic senators on the finance committee had been dealt with unfairly in not being allowed to vote in committee on the adoption of the report. He remarked that an agreement for that purpose entered into by the chairman, Mr. Aldrich, had been violated. Any intentional violation was disavowed by Mr. Aldrich, who said he could not agree with Mr. Daniel as to what had occurred between them.

Senator Bristow denounced the bill as a violation of Republican principles, and announced that he would not vote for it.

In order to clearly fix the responsibility in the passage of the bill and in the framing of its several schedules, Senator Bacon presented an analysis of the 137 yeas and nay votes that had been taken on its consideration. This list of votes the senate agreed to print in the record.

The senate at 4:46 o'clock adjourned until ten o'clock tomorrow.

President Taft has written a letter to the tariff conferees endorsing the language of the conference report in reference to the compromise on the hide and leather question.

JAPANESE MINE MAY BE BOUGHT

English Syndicate Takes Option on Queen Charlotte Property

Vancouver, Aug. 2.—An English syndicate, through a local representative, is negotiating for the purchase of the well known copper gold mine at Ikeda Bay, Queen Charlotte Islands, owned by the Japanese firm of Aways, Ikeda & Co. It has secured a two months' option, which will expire on September 15 next. News of the impending deal was confirmed today. The consideration is understood to be in the vicinity of \$200,000. The property is one of the best known on Queen Charlotte Islands. During four years operation 35,000 tons of copper ore has been shipped to smelter.

THE SCOTCH AND CANADA

Owners of Historic Abbotsford Pay Pretty Compliments to This Great Dominion.

Montreal, Aug. 2.—Among the guests at the Windsor Hotel last evening were Hon. J. Maxwell Scott and Mrs. Scott, the latter being a great-granddaughter of Sir Walter Scott. They are the present owners of Abbotsford, although residing in London. Mr. and Mrs. Scott are en route to Kamloops, where a son is now staying. Mr. Maxwell Scott spoke very hopefully as to the present agricultural outlook in Scotland, saying that farmers there are doing better than for some time past. Although Canada is becoming very well known as a great farming community, he did not know that many people are now leaving Scotland for the western plains. He felt, however, that when Scottish farmers were compelled to leave the fatherland, no better place could be found than the Dominion of Canada, where they would have all the advantages of British institutions and all the protection which goes with the British flag. They had learned that Scottish farmers were much appreciated in Canada, and he and Mrs. Maxwell Scott remarked that they accepted this as a very great compliment to the Scottish people. It was also a very great pleasure for her to realize that her countrymen were taking such prominent places in the commercial and agricultural life of the Dominion. As to political matters, Mr. Scott remarked that at the present time the old country had a mediocre government, and a change would be heartily welcomed by almost every class in the community.

OLD SPANISH GAME

South Dakota Man Nearly Fleeced Through Ancient Story of Prisoner and Fortune.

Madrid, Aug. 2.—The Spanish swindling agencies which fleeced the innocent in all parts of the world for many years with stories of buried treasure, legacies, etc., continue to find victims in the United States. The latest is C. M. Morgan Jones, of Aberdeen, S. D., who will learn for the first time through this Associated Press despatch that the \$1,200 that he spent in the form of a draft on the Credit Lyonnaise fortunately did not fall in the hands of the swindlers but will be returned to him by the Spanish authorities in due course. A decoy letter signed by C. Burrell Lopez, home and taken over the management of a Spanish prison leaving a daughter in a Spanish convent. A large fortune had been found concealed in his baggage and the man's dying request was that the relative in South Dakota would give his daughter a home and take over the management of his fortune, only there were death charges amounting to \$1,200, and unless these were immediately paid the government would confiscate the dead man's money.

So Jones, of Aberdeen, S. D., got together the cash and mailed the draft. Fortunately the address, "C. Burrell Lopez," was known, and the authorities opened the letter and will return the money to the sender. Such cases occur frequently, though not often with such luck for the victim.

Bank of Montreal Change.

Vancouver, Aug. 2.—R. R. Wallace was today installed as assistant manager of the Vancouver branch of the Bank of Montreal, succeeding V. Cronyn, who left yesterday for Toronto to enter upon his new duties with the Northern Crown Bank. The new assistant had a very successful banking career. His last position was that of accountant in the Bank of Montreal at Winnipeg.

EXPERIMENTS WITH AIRSHIPS

British Government to Purchase Balloons and Aeroplanes

London, Aug. 2.—The sub-committee of the imperial defence committee, appointed to confer on matters of aviation, has given a verdict on rigid dirigible balloons for naval purposes, and on non-rigid balloons for the army. The aeroplane committee considered that these machines possibly may become valuable to the army, but they must be able to ascend to a much greater height than yet has been achieved before they will be useful for reconnaissance purposes.

War Secretary Haldane announced in the house of commons this afternoon that in consequence of this report the admiralty had ordered a rigid dirigible of the largest type from the Vickers Works, and the government factory at Aldershot was busy with the construction of three non-rigid balloons and two aeroplanes for experimental purposes.

Mr. Haldane said in addition: "The remarkable events of recent days—M. Bleriot's flight across the channel, and the flights in America—all point to the fact that some time in the future the aeroplane will be capable of bringing out great results."

MR. M'CURDY'S FLIGHT

Test of Aerodrome Motor Interrupted by Accident—Good Hopes for New Machine

Peteawa, Ont., August 2.—At 5 o'clock this a. m. the Silver Dart made four successful flights of approximately half a mile each. The principal object of the trial was to test the new 40 horse power auto motor which is to be transferred to Baddeck No. 1. According to Casey Baldwin, the new motor "is a dandy and worked admirably." McCurdy was operating the aerodrome, and Mr. Baldwin went along as passenger. This is the first time a second party has been carried on a Canadian flying machine.

There was no wind blowing at the time, and the weather conditions were ideal. The aerodrome flew eastward and rose gracefully into the air, attaining a speed of over 40 miles an hour, which is a record speed for Canadian flights.

On landing the fourth time the blazing sun over the hills showed in the aviators' eyes, and as they were landing the aerodrome struck a knoll a little short of the crest, ricocheting and striking the wings, and control were wrecked but the motor remained uninjured. The aviators sustained a few scratches, but are enthusiastic over the performance of the machine.

The accident will not interfere with the work on Baddeck No. 1, and the aviators are busy taking it to the assembling shed, where the work of fitting it up will be begun.

The prospects for this machine are most encouraging, and some remarkable flights are anticipated. The trial was only a preliminary one, made to satisfy the aviators as to the motor and the balance of the aerodrome.

Abuse of Free Speech.

St. John, N. B., Aug. 2.—Two men were arrested here tonight charged with selling copies of "Free Speech," a Monoton publication barred from mail privileges. Large bundles of the paper were also seized by the police. The paper for weeks past has contained many scurrilous attacks on prominent citizens, hence the action. At this afternoon's session of the city council a bylaw was unanimously passed making it a misdemeanor for any person to print or circulate any book, pamphlet or newspaper of a scurrilous nature. A move to legalize boxing bouts of 15 rounds was killed by the council today.

CZAR REVIEWS GREAT FLEET

Spectacular Pageant at Cowes in Honor of Imperial Visitors

RUSSIAN MONARCH CLOSELY GUARDED

Friendly Sentiments Were Exchanged at State Dinner in Evening

Cowes, Aug. 2.—The first official visit of the Russian Emperor Nicholas to England was one of the most impressive and spectacular events that Cowes, accustomed to naval pageantry, ever witnessed. King Edward, with most of the members of the royal family, put out this morning on the royal yacht Victoria and Albert and met the Russian Imperial yacht Standart and the squadron of warships accompanying it off Spithead at noon. Emperor Nicholas immediately went on board the King Edward, where he was greeted by King Edward, and after the monarchs had partaken of luncheon the Russian squadron, with the Victoria and Albert leading the way, reviewed the British fleet.

The British had 150 ships aligned in three fleets between Cowes and Spithead. There were 26 battleships, of which seven were Dreadnoughts, 16 armored cruisers, 8 other cruisers, 48 torpedo boat destroyers and shoals of submarines. There were hundreds of decorated yachts of all types at anchor.

The Russian squadron was made up of the Imperial yacht Standart, his consort, the Polar Star, the big cruisers Admiral Makharoff and Rurik, and two torpedo boat destroyers.

The British sailors and marines manned ship as the squadron passed through the lines. All the British bands played the Russian national anthem, the King Edward's band, the Prince of Wales, Admiral Sir John Fisher, chief naval aide to King Edward; Reginald McKenna, first lord of the Admiralty, and a number of lesser officers were on the bridge of the Standart.

The measures taken to safeguard Emperor Nicholas made him seem like a prisoner of state when compared with other royal personages who have visited Cowes during regatta week. The Standart dropped anchor between two battleships of the Dreadnought type, which are surrounded by smaller vessels, while small boats patrol about the visitors constantly. Scotland Yard has a hundred detectives at Cowes, and the Russian police department has an equal representation. The Emperor will remain aboard ship during his visit except for a brief tour ashore to the Cowes naval school on Wednesday morning.

Tonight the Russian Emperor and Empress dined with King Edward and Queen Alexandra and the members of the British royal household on board the Victoria and Albert. All the ships in the harbor were illuminated all night. The dinner was a brilliant function. The dining-room was beautifully decorated with red roses, and on the table was a magnificent display of gold plate. Beside the King and Queen and the Emperor and Empress, the guests were the Prince and Princess of Wales, the Prince and Princess of Sweden, the Prince and Princess of Denmark, the Duke and Duchess of Connaught, Premier Asquith, Sir Edward Grey, Reginald McKenna and M. Iswolsky.

King Edward in proposing a toast to the Russian monarch said: "I am glad that you have seen the opportunity of seeing the most powerful and the largest fleet ever assembled, but I trust your majesty will never look upon these ships as a symbol of war, but on the contrary, as a protection to our coasts and commerce, and also as a means of upholding the interest of peace."

The King also referred to his pleasure at the recent meeting of a number of members of the Russian Duma, and made allusion to Emperor Nicholas' former visit to England.

In responding, Emperor Nicholas said that the magnificent opportunity view he had witnessed was a full testimony to England's greatness. His Majesty said he always would remember the days he had spent with the beloved and venerated Queen Victoria. In concluding, the emperor said: "I am friendly welcome given by your Majesty and Queen and the people to the members of the Duma and in the winter to my squadron, be a token of the cordial relationship between our two countries, founded on common interest and mutual esteem."

Emperor Nicholas tonight was elected a member of the Royal Yacht Squadron by acclamation.

REPORTED TO EMPEROR

Differences Between China and Japan and Status of Former in Manchuria.

Tokyo, Aug. 2.—After long consideration on the differences existing between Japan and China as to the status of the former nation in Manchuria. Foreign Minister Komura submitted the entire matter to the Emperor this morning. This move had been expected before the end of July. Advice to this effect received today was to the effect that China is sending a large body of troops secretly into Chientao, but this report is not credited here.

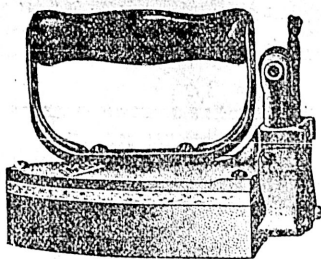

Heavy Car Contract.

Pittsburg, Pa., Aug. 2.—Contracts were awarded today by the Pennsylvania Railroad company for freight cars to coast between \$3,000,000 and \$9,000,000. The cars will replace old equipment east of Pittsburg and Erie,

Make Ironing Day Easy

FIRST BY-LAW MUST STAND

City Barrister Says Cook Street Owners Will Have to Take Macadam

Cook street property owners will be given a macadam pavement as was contemplated under the first by-law passed last year.

Since they have seen fit to turn down the by-law providing that the original scheme should be so amended that a tar surface should be put on the original pavement the owners, according to the decision of the council which is based on an opinion given by the city barrister, will instruct the city to go ahead with the original scheme. The barrister was asked what steps the city could take, following the refusal of the owners to accept the amended scheme and at last night's meeting of the council his opinion was read. Mr. Taylor says that in view of the blocking of the by-law to amend the original scheme there does not appear to be any other alternative for the city to pursue than to proceed with the original by-law. When works of local improvement are undertaken by the city under the Municipal Clauses Act assumes that the work shall be carried to completion and not left partially finished, otherwise property owners and the city would be put to expense for useless work. Because opinion may differ after work is once undertaken as to its probable utility or benefit they furnish no reason for doing about half the work contemplated.

Excessive Cost.

Just why it should be so was not explained but according to a report submitted by the city assessor and the city engineer the work of local improvement, under the permanent sidewalk construction by-laws Nos. 24 and 29, has greatly exceeded the estimated cost. The excess under By-law 24, providing for permanent walks on portions of Frances avenue, Houghton street, Pembroke avenue, Fernwood road, Fern street, Grover street, Pandora avenue, Cross street, Vancouver street, Trutch street and Davis street, is placed by the two officials at \$10,608 and at \$2,640 for the work under By-law No. 29 which provided for permanent walks on portions of Vining street, Gladstone avenue, and Bank street.

This news came somewhat as a surprise to the council but in view of the fact that there was no information immediately available to show just what works were referred to the matter was allowed to stand over until Friday night when the matter will be taken up by the streets, bridges and sewers committee and the city engineer will be present to give an explanation.

Water Commissioner Raymur's communication explaining why it is that the water main on Cook street was laid bare during the course of grading operations brought out a protest from Alderman Turner who protested that that department should be forced to pay for laying the main at a proper depth. He cited certain streets where the water department is supposed to lay mains and the city engineer's department is supposed to put the streets in proper condition but such is not done.

Up to Former Engineer.

The water commissioner wrote that the grading operations on Cook street have laid bare the twelve inch water main, which will have to be lowered. This pipe was laid by Mr. Summerfield, when the latter was water commissioner during the year 1887, on the grade given by the then city engineer. As the grade has been altered, Mr. Raymur expressed the opinion that the cost of lowering should form part of the local improvement work now under way on Cook street and not to be a charge on the waterworks department.

Ald. Fullerton could not see why the property owners on Cook street should be forced to pay for the lowering of a main which benefitted the whole city, while Mayor Hall, reverting to Alderman Turner's kick, said it was quite true that some streets have been torn up and not yet repaired, but they would be and at the expense of the water department. Alderman Henderson pointed out that the water main on Cook street was not put down to the proper grade, but by that very fact the water department had been saved that much expense. If any department should pay for the necessary extra work it, should be the water works department.

Alderman Raymond declared that within the past two years, and while the department was under his head, water mains had been laid on Linden avenue and McClure street at such a depth that when grading operations were undertaken it was found not once, but twice, Alderman Turner urged charging the extra cost up to the water department claiming that to charge it up to some other department to lay mains at "any old grade" taking a chance that later, when the mains would have to be lowered, the cost of so doing would come out of the local improvement fund.

As a result of the discussion it was decided that the cost of lowering the main must be paid by the waterworks department.

Want Compensation

Because of the delay shown by the city in coming to some arrangement relative to the widening of Esquimalt road at the point where the new brewery building for the Silver Spring Brewery Company is in course of erection, and the alleged consequent expense which the company was put to in holding back its building operations pending a decision of the council as to whether the company, in return for allowing a portion of property claimed by the city, but occupied by the company to be included in the roadway, should be given a portion of Lime street at the rear, which negotiations fell through, the company is now demanding compensation from the city. Several letters relative thereto have passed between the solicitors of the company, Messrs. McPhillips & Helsterman, and the city solicitors. The latest amount asked was \$1,000. The last communication of the company's solicitors was addressed to the city council urging that the city make compensation and calling attention to the fact that so far they have received no definite reply from the city.

Mayor Hall stated that the matter had been referred to the city barrister for an opinion, but the latter had not yet given it. Ald. Turner urged that the company be given an answer. It is entitled to some consideration owing to the delay on the part of the city and the corporation should endeavor to act squarely with the company whether the city is legally liable or not.

It was decided to await the reply of the city barrister, and the company will be asked to state the nature of its claim. Ald. Ross called attention to the fact that while the company is going ahead with its building, and the city has given up any idea of securing a portion of Esquimalt road, the company is still occupying a portion of Lime street.

Brick Tenders

Tenders for a supply of 1,000,000 brick for use in the construction of drains on Cook street, Fernwood road and Speed avenue, were received from the Sidney Island Brick & Tile Company at \$11.25 per thousand delivered on board the wharf, from John P. Blford at \$11 per thousand and at his yard, Douglas street, and from Baker Bros. at \$11 delivered at their kiln. Ald. Bishop expressed surprise that the price of brick, before these tenders were called for, was but \$10, while Ald. Henderson suggested having the city engineer give an estimate of cost of concrete as compared with brick for drain purposes, though Ald. Humber, who declared he knew something about brick, stated that if the city paid \$14 per thousand and delivery charges, brick would be cheaper than concrete. The tenders were referred to the building inspector and city engineer, and the latter will also give the information asked for by Ald. Henderson.

The building inspector, reporting on the advisability of increasing the stall accommodation at the market building, stated that there is room on the south end of the lots at the east and of the building to locate a building 20 feet wide by 130 feet long to contain stalls for 25 animals, and as receipts for the year June 29, 1908, to June 30, 1909, amounted to \$541.35 the outlay of \$1,390 for the new addition would be justified. But as there is only \$400 in the estimates for the market building this year the building inspector suggests that the proposed improvements be left over until next year. This will be done.

Work Will Proceed.

The city assessor reported that as no sufficient adverse petition has been received against the proposed work of widening Oak Bay avenue from the westerly line of lot 3, block 1, Fernwood avenue, to Jubilee avenue and on the south side from Rockland avenue to McGregor avenue and of expropriating certain real property for this purpose and grading said avenue, the necessary by-law will be prepared.

The report adopted by a special meeting of the Inner Harbour association relative to improvements to the navigation of the inner harbor, the particulars of which have been already published, was adopted. The association asks that the city do nothing until the answer of the Dominion government is received, stating whether the federal authorities will not proceed with the work of deepening the channel as at first proposed.

The request of J. P. Wall, attorney for William Docking, that another investigation into the circumstances of the sale of his cow by the pound-keeper, who had impounded the animal, will not be entertained, one investigation having already been held when it was found that the sale was a private matter between the pound-keeper and the person who purchased.

More Complaints.

Ald. Turner again complained of the fact that the old buildings owned by the city at the civic yards on Yates street have not been pulled down. The fact that there is no place in which to stable the horses now at the yard did not worry Ald. Turner who declared that the council had ordered the removal of the buildings. Ald. Fullerton pointed out that the fire chief had ordered the removal of a forge and the clearing of the roof, which are now moss grown. He could not understand why that had not been done and Ald. Turner sarcastically pointed to the fact that evidently city officials do not follow out orders.

Ald. Turner also complained of the piling of old lumber on Douglas street and a brickyard. He did not know whether it was Ald. Humber's yard but the ties should be removed. Ald. Humber declared it was not at his yard, but he failed to see why trouble was raised over a little thing like that at the outskirts of the city. He pointed out that the streets are littered with all kinds of material and no notice taken. He cited certain premises within two blocks of the city hall where rigs are allowed to stand on the street all the time, and Ald. Fullerton complained that the police evidently do not enforce the by-laws. Contractors are called up if they obstruct the streets but others may evidently do so with impunity.

More Apparatus.

The report of the fire warden recommending the purchase of one and one-quarter mile of copper wire to connect the Empress hotel with the generating room at the central fire station to allow of power being sent to the former for the alarm system, at a cost of \$150; the purchase of 50 new battery storage cells to cost \$100 and a Plench register and time stamp to cost \$225, was adopted. The thanks of the council will also be extended to Mr. Humber, manager of the Empress hotel, who has consented to supply the current for the fire alarm system free of charge.

The report of the streets, bridges and sewers committee was adopted as follows: 1. Recommended that the surface drain on Quadra street be extended to No. 270. Estimated cost \$350. 2. Recommended that a 4 inch water main be laid on Hollywood avenue, from Ross street to Esquimalt road at lot 12. 3. Re communication of Messrs. Sabin & Stevens, regarding water to be used by them in connection with the work of paving Wharf street. Recommended that the writers be informed that as all water used by the engineer's department on street work is charged up to the work, the council should recommend an exception in the case of Wharf street, but would, however, recommend that the rate to be charged the contractors for this work be fixed at 25 cents per cubic yard, or about half what is charged in similar cases.

4. Re communication of Messrs. E. and T. Taper, desiring that the water main on Cedar Hill road be extended from the corner of Cedar Hill road and Galdland avenue to their property outside the city limits.

Recommended that the writers be informed that the council do not see their way to accede to their request.

5. Recommended that the mayor be authorized to execute the agreement between the corporation and the Rudolph & Blome Co. of Chicago, for laying grantold pavement on Cormorant street between Government and Store streets. 6. Re communication of the B. C. Railway Co. applying for a permit to erect some three poles on Dallas road for the purpose of lighting the new residence erected there for Mr. Blenheim. Recommended that such permission be granted, the location to be determined by the city engineer, the poles to remain in the positions selected during the pleasure of the council. 7. Re improvement of Asquith, Cecil, Forbes and Victor streets. Recommended that the city engineer be authorized to have the streets graded and the water main laid.

The Best Equipped Men's Store in Victoria

August and September bid fair to present us with ideal summer weather. We would, therefore, emphasize "flannels" as the ideal fabrics for summer wear. These are just the neat, well-tailored Suits in which you will feel cool, comfortable and entirely satisfied—just what up-to-date men need for outing, travel, business, semi-dress—anything:

WILSONS

MEN'S FURNISHERS

mended that owing to the extent of the work and the fact that the property is at present vacant, the property owners be informed that if they desire the work carried out in the near future, that they bear the total cost of the improvement.

OBITUARY NOTICES

Turco

The death occurred yesterday at the Royal Jubilee hospital of John Turco, a native of Italy. The body is being removed to the Victoria undertaking parlors, and will be shipped tomorrow to Ladysmith.

Ainger

While in the act of getting out of bed, presumably to summon aid, James Ainger, aged 33 years, who boarded at 1203 Blanchard street, dropped to the floor yesterday afternoon, and before Dr. H. Robertson could reach him he died. Death is supposed to have been due to heart failure. Deceased, who was born in London, England, had come here from Nelson, B. C., a couple of months ago for his health. The change failed to benefit him, and for the past few days he had been seriously ill. In Nelson he had been engaged in engineering work. The remains have been removed to the Hanná chapel, Yates street, and the police have wired to a brother of deceased, who lives in Montreal.

Hamilton

The funeral of the late Gavin Hamilton will take place this afternoon from the Victoria Undertaking Parlors. The funeral cortege will leave the parlors at 3:45 and proceed to St. Andrew's Presbyterian church, where services will be held at 4 o'clock by the Rev. W. L. Clay. From there the cortege will proceed to Ross Bay cemetery for interment.

ARCHAEOLOGICAL TREASURE-TROVE

London, Aug. 2.—Excavations conducted by the Archaeological Department of the Indian Government near Peshawar, the British stronghold near the frontier of Afghanistan, have resulted in the discovery of an ancient Buddhist memorial mound, containing a bronze casket, within which are some of the ashes of Gautama Buddha, the founder of Buddhism. They are enclosed in a wrought hexagonal rock crystal receptacle, sealed with the royal seal of the Emperor Kanishka, who was ruling in Peshawar at the opening of the Christian era. "When Buddha died in B.C. 482, his body was cremated and the ashes divided in eight parts among his disciples," said Dr. L. D. Barnett, keeper of the Oriental books in the British Museum, discussing the find. "One of the vases containing these portions, known as the Piprahwa Vase, was discovered a few years ago by the Government survey."

PURITAN COMING TO B. C. FROM NOME

Advices received by Dodwell & Co., agents, state that the British steamer Puritan left Nome for British Columbia on Wednesday last. The Puritan has discharged cargo of coal in Norton Sound and is chartered for a return voyage. Last month the collier was seriously crippled in the ice, losing her propeller blades and having a hole stove in her bow. The revenue cutter Thetis towed her into Nome. It is likely that she will require repairs before beginning her second voyage.

Governor-General at Winnipeg

Winnipeg, Aug. 2.—Earl Grey and party reached here at 12:30 p.m. yesterday. With the Governor-General there were Lady Sybil Grey, Lady Sybil Broderick and Lord Lascelles. A committee of those in charge of the Selkirk centennial exposition for 1912 waited on Earl Grey Saturday and presented, through him, an invitation to King Edward to open the fair and failing His Majesty the Prince of Wales. Earl Grey and party left for the West tonight, en route to the Yukon.

CONGRESS ISSUES
CONVENTION CALL

Central Labor Organization of
Canada to Be in Session
Next September

The Trades and Labor Congress of Canada has issued a convention call. It is addressed to the officers and members of trades and labor councils, to national trades unions, federal labor unions and international local trades unions in the Dominion of Canada.

It is signed by Alphonse Verreille, M. P., the president; James Simpson, vice-president; and E. M. Draper, secretary-treasurer. It reads as follows:

"The twenty-fifth annual session of the Trades and Labor Congress of Canada will convene in the provincial legislative buildings, city of Quebec, beginning at 10 o'clock, Monday morning, September 20, 1909, and will continue in session from day to day until the business of the convention has been completed.

"It is singularly appropriate that the organized wage earners of Canada should assemble in this ancient capital to discuss the welfare and progress of the toiling masses. To the vision of the immigrant and visitor it typifies all that bright, hope and lofty ambition inspire in the traveller from older countries, who comes to seek that peace, progress and spiritual uplift that make for material and moral contentment. Fleeing from the tyranny and oppressive industrial and national conditions that surround him elsewhere, he sees in Quebec the promise of a better home life, higher civilization, loftier aspirations, nobler aims in life and religious freedom. How appropriate, therefore, that the congress, representing all these ideals on behalf of the masses, should meet at Quebec to further the moral and material interests of its constituents.

"The matters that will be presented for the earnest consideration of the delegates are not less weighty than heretofore. Indeed, at no period in its history has the congress had a more important duty to perform. Apart altogether from the important legislation of the Dominion parliament and of the provincial legislatures, the ever pressing demands for the amelioration of industrial conditions and the betterment of the whole of our industrial forces—apart from these altogether, a pronouncement is urgently needed upon the present jingo propaganda for military training in the schools, military and naval equipment. Canada is a country of peace. The problem of living in times of peace is difficult enough without having foisted upon us a vast expenditure for non-productive, but highly destructive, effort. 'War is Hell!'—for the workingman. Labor cannot afford to be silent at this critical juncture, but should unite with all peace loving citizens of Canada to squelch, in its incipency, the forced sentiment that would involve us in the quarrels of other lands.

"Following the financial and industrial depression of the past year or two, organized capital will be found ready, as ever, to foment its troubles upon the wage earner. The latter must be up and doing for his own sake. With prosperity in sight, labor must prepare to share in it. Now is the time to voice your views, select your delegates early and help to make the Quebec convention the greatest in the history of organized labor in Canada."

THOUSAND LIVES
REPORTED LOST

Traffic on Antung-Mukden Railway is
Tied Up For Fifty Days—Fear-
ful Fatality Near Kirin.

Tokyo, Aug. 2.—Further advices received here regarding the flood situation in the province of Chang Chun, Manchuria, are to the effect that owing to the damage done by water, traffic on the Antung-Mukden railway has been tied up completely for fifty days. According to previous dispatches, 1,000 lives were lost in the city of Kirin and 700 houses were submerged.

TEES BRINGS
NOOTKA MARBLE

Steamer Arrived Last Evening
From West Coast With Pas-
sengers and Cargo

There were several passengers and 48 crates of marble from the quarries at Nootka upon the steamer Tees, which arrived last night from the west coast.

This shipment of marble, now being opened up at the warehouse on the Hudson's Bay Company wharf, shows handsome designs in cut marble and four polished slabs four feet by seven and one-half feet, giving an excellent idea of the beauty of the Nootka article, and the size of blocks from which they are manufactured.

The company has started a complete core drilling examination of their property, and for this purpose are using a three inch core drill. One of the interesting specimens of marble by this shipment consists of a section of one of these cores. A shipment of marble is also being forwarded to Vancouver.

LETTERS TO THE EDITOR

An Interesting Episode.

Sir—A few days since I saw an article in your columns referring to the loss of the Birkenhead and the magnificent discipline shown by the British troops in face of certain death. Perhaps I can supplement the account by an interesting episode which is not generally known.

One of the officers named MacGregor had his young wife and little baby on board. When the order was given for the women and children to be put in the boats the wife refused to leave her husband's side but one of the sailors just as the boat was leaving shouted: "Throw us the baby."

The mother with true heroism gave up her baby. It was thrown safely into the arms of one of the boat's crew and was thus unconsciously rescued.

Now for the sequel.

Many years after this child became governor of one of the West Indian islands and one day a bottle was brought to him which had been picked up from the sea. Judge of his feelings when he found it contained a letter written by his father and mother from the deck of that ill-fated ship 30 years before, breathing the most absolute Christian fortitude and confidence in God even in that hour of peril.

The son was Rob Roy MacGregor, the inventor of the canoe which bears his name and in which he traveled many thousands of miles. He is now well known in another sphere as one of the founders of the Open Air Mission which has seen the means of blessing to thousands in the old country. Probably most of us will see a connection between the bravery manifested by the troops on that awful occasion and the example of the young officer in charge. Also we may judge of the inspiration given to the son to live worthily of such a father and mother.

It only remains for me to add that I have seen the original letter and the story as I have related it from the widow of "Rob Roy" MacGregor.

A. T. FRAMPTON.

GOOD PANTAGES SHOW

Musical Concert Company and Chinese
Novelty Makes
Hit

A good show? Yes, a very good show is on at Pantages this week. It is classy all the way through without one dull moment; something that unfortunately cannot be said of the average show. Elliott, Farrens and Elliott, two women and a man, garbed in classic costumes of the romantic age, the days when music was music, present an instrumental and vocal programme, individual and in concert, that is a musical feast. The instruments used are Italian harps, and this act would attract even the most fastidious. Davanto, the greatest Chinese impersonator in vaudeville, is also there with the music, but his is Chinese music and great. He is likewise present with a delightful line of comedy and with elaborate stage settings to represent a Chinese stage. Waranto is a most delightful entertainer. Wilbur, with his human dummy, is a decided novelty, and there has been no better ventriloquist ever visited Victoria. A pleasing bit of black art opens the show and the regular attractions are excellent.

RETURN THANKS FOR
ORPHANS' TREATS

Ladies' Committee of Orphanage Holds
Meeting—Presents Accounts
and Hears Reports

The usual monthly meeting of the ladies' committee of the B. C. Protestant Orphans' Home was held at the home yesterday, at 2:30 p.m. The committee reported having received a letter from the Victoria Male Voice Choir, proposing to give an open air concert, the proceeds to be devoted to the orphanage, which generous proposition received the unanimous and grateful acceptance of the committee. A unanimous vote of thanks was passed to Mr. and Mrs. Roy Proulx for most kindly taking the children to the Gorge in the White Swan Flyer; also to the proprietor of the merry-go-round at the Gorge park for so freely entertaining the children.

The committee expressed its pleasure that Mrs. Kay had returned from her holiday feeling greatly benefited by her visit to Shawinigan.

Another picnic this month had been enjoyed by the children at Beacon Hill, when the matron and her assistant, with the whole household, spent a happy day at the park.

The visiting ladies for August, Mrs. Sherwood and Mrs. Vigellus, were appointed. Bills were paid amounting to \$144.45. A very good report was read from the visiting ladies, detailing everything in a very satisfactory condition in the home. The generous donation list was read, in which the name of Mr. Tony Silven appears with his usual bountiful gifts.

After the closing prayers the meeting adjourned.

Donations.
The donation list follows: Captain

DEFENCE NOT DEFIANCE

Richardson's Canadian Armor-Plate
Outclasses German Product By
125 Per Cent.

London, Aug. 2.—Harold A. Richardson, of London, Ont., who has been here for the past two years in connection with an improved process for the manufacture of armor plate, has scored a great success in the tests of his armor plate by the British naval authorities at Whale Island. The test consisted of a six-inch armor plate being fired at by a 3.2 inch gun at the short distance of 120 feet, an armor-piercing capped shell being used. Though this was a very severe test, the shell made no impression on the armor plate at that distance, the plate, on the other hand, shattering the shell into a thousand fragments. Mr. Richardson estimates that his production is at least 125 per cent. better than German armor plate, and declares it ought to prove of inestimable value to the Admiralty, with whom he has been negotiating for some time past. He intends to give the Old Country the sole benefits of his patent. He has already purchased a site here for a plant, and says he is backed by big men. He hinted that the Admiralty was holding over the armor plate for the new Dreadnoughts until the result of the tests of his invention was known.

Kootenay is to be admirably represented at the forthcoming Toronto Exposition.

THE INDIAN QUESTION

There is no use in pretending that considerable uneasiness is not felt as to the changed attitude of the Indians on the remote localities towards the white people. We do not know that the Indians are wholly to blame. Accounts have reached us of great injustice being done them by white people, and it is not a matter of surprise that they are in somewhat of an ugly frame of mind. We are not apprehensive of any immediate difficulty, but the principle that "an ounce of prevention is better than a pound of cure" fits the case like a glove. The unrest has its origin in several things. One of them is the not unnatural feeling of the Indians when they see their hunting grounds restricted by settlement and their fishing privileges curtailed by regulation, that they are being deprived of rights which are theirs beyond all question. We must not expect the Indians to see things from our point of view. Do we not know that in considering the very plain case of the Songhees Reserve white men, as anxious to have that matter settled as any one can be, have read into the correspondence between Governor Douglas and the Colonial Office things favorable to the Indians which are not there. Ought we then to be surprised that the Indians themselves are easily convinced that their rights are very much greater than they are? Two things seem to us to be necessary. The first is to show the Indians that the authority of the white man is not to be trifled with. This lesson should be brought home by a demonstration to them of the nature of the authority and of its sufficiency to maintain peace and punish offenders. When this has been done, the next step should be to exhibit to the Indians a disposition to deal with them in a spirit of perfect fairness, and genuine liberality. If ever it came to a question of force the Indians would make a poor resistance. But force ought to be avoided as long as it is possible. The plans of the provincial government are all that can be expected from that quarter, and are ample for the purposes within its jurisdiction, but, the Indians being the wards of the Dominion, it seems to us that it would be wise on the part of the federal government to assume some of the duties of guardianship other than those ordinarily undertaken. In other words it ought to see that its wards keep the peace. We have the best of reasons for saying that the federal authorities are very much alive to their duty in this respect, and will act promptly when a judicious line of action can be laid down. One of the difficulties in the situation is the very natural desire of officials not to exaggerate the unrest for this may possibly lead them to minimize the necessity for action of any kind. Under any circumstances the matter is a delicate one to handle; but our humble judgment, which may or may not be of any value, is that there ought to be action taken by the Dominion government in concert with the precautions taken by the provincial government.

THE UNITED STATES TARIFF.

It would seem absurd to claim that the revised tariff will meet the expectations of the people of the United States. During the last presidential contest they were led to expect that the election of Mr. Taft meant a series of changes in the direction of lower duties. The bill prepared by Representative Payne was a bona fide attempt to comply with that expectation; but when the measure got into the senate the majority of that body under the lead of Senator Aldrich assumed the astounding position that the pledge of tariff revision meant revision upward and not downward. The Aldrich Bill was not calculated to reduce customs taxation, and that was what the people had been promised. They had been assured that the interests of consumers would be considered to some extent, but the Senate Bill conveniently ignored the existence of any such class in the community. The measure as patched up in the Senate being very different from what it was when the house passed it, a conference of the two houses was the next step under the constitutional practice, and at this stage the President was able to use his influence to some extent. The result has been a compromise, which like most compromises, satisfies nobody. The President will sign the measure as it stands, but he will doubtless do so with a heavy heart, for he knows perfectly well that it is not a fulfillment of the pre-election promises which he made and which were made in his behalf. In

preparing the measure as it stands both of the great political parties were concerned. The Republicans stood out more strongly than the Democrats for high protection, but the latter have to bear a large share of the responsibility. The chief interest attaching to the new tariff from an outside point of view is its political effect. In some of the United States papers it is easy to see evidence of a belief that there will be a breaking up of old party lines, and the formation of a new party, which will specifically espouse the cause of the consumer. As one writer expresses it, the Democrats who have fought side by side with Republicans in the interests of the consumers, can hardly oppose each other in a campaign in the consumers' interests. If the expected new line of political demarcation is drawn, one can hardly say how far it may not extend. The people of the United States submit to a great deal of misgovernment because they have faith in the sufficiency of their particular form of government to produce remedies for all political ills as soon as the case becomes serious enough to demand a remedy. Sometimes the remedy is a very costly one, as was the case with the abolition of slavery; but they are content to wait feeling certain that, in the words attributed to Lincoln "you can fool all of the people some of the time; you can fool some of the people all of the time; but you cannot fool all of the people all of the time." As a general proposition that is true enough, but the process by which it is worked out is apt to be slow and destructive. It is unsafe to make even general political prophecies; but we think the signs are that the people of the United States are becoming tired of high protection, and that the trend of public opinion in favor of a lower tariff will receive a decided impetus from the action of congress.

The United States showed the world the way to high protection as a fiscal policy, and as long as that policy prevails in that country the trade conditions of other countries will not be seriously disturbed by anything which congress may do in the way of altering the customs schedule. But once let genuine tariff revision be undertaken, once let duties be so lowered that the United States approaches anything resembling a free trade basis and every civilized nation will find its commerce affected. Years ago some of the leading English statesmen expressed a fear of what might happen if the United States ever shook itself free from the principles of protection, and with its vast resources in natural wealth, intelligent population and monetary strength, declared itself ready to face the world in open competition. Of late years there has been a tendency to ignore the possibilities involved in such a change, but political economists everywhere are beginning to realize that the principle of protection has yet to meet the only real strain that can be put upon it, which will be when the United States abandons it. Some may say that we are suggesting the impossible when we contemplate such a reversal of policy on the part of the republic; but we draw the attention of such people to a few important facts. One of them is that a high protective tariff has failed to produce the revenue needed for the growing needs of the country. These needs apparently will grow at a more rapid rate in the future than in the past. For right or wrong the country has been committed to a costly naval and military programme. The vast population is making greater demands than ever upon the federal revenue. So serious are these demands felt to be that a constitutional amendment is to be submitted to authorize congress to impose an income tax for the purpose of raising a revenue. If this amendment is adopted, we may look out for a change in public sentiment. When a tax collector comes to every man's door to ask for a direct contribution towards the expense of governing the nation, the question will be asked all over the country: Why do not the customs yield enough to meet the public demand? The answer will be that the duties are too high to permit of a sufficient import trade. The next question will be: In whose interests are imports prevented? The answer will be in those of the great trusts and monopolies. It will be idle to assure the ordinary individual that he gets higher wages because of protection, for he will reply by pointing to the increased cost of living. He will want to know why his small income should be taxed in order that tariff beneficiaries may make princely fortunes. Then will come about a change. No country in all the world is better equipped to stand upon a policy of free trade than the United States, and if such a policy is ever adopted, or even approached, every other country will have to adjust its policy accordingly.

AS TO DREADNOUGHTS.

There is a revival of the discussion of the propriety of giving a Dreadnought to the Royal Navy. It is many-sided. One paper declares that the general sentiment of Canadians is in favor of such a gift. While the Colonist would like very much to see such a gift made, it is unable to discover a very strong sentiment in this particular direction. As far as we can judge, the general opinion seems to be that the shape which Canadian contribution to Imperial defence should take is something that ought to be left in abeyance until after the conference now in session has reached a conclusion. Another paper assails Mr. Borden for truckling to the French element when he accepted Sir Wilfrid Laurier's resolution. It is easy to get a reputation for being more loyal than other people. All one has to do is to asseverate that something spectacular

ought to be done, and leave others to work out how it is going to be done. Mr. Borden is doubtless quite as patriotic as his critics; he probably feels the responsibility of his position more than they do. He would be unfit for the post which he adorns if he accepted the first suggestion made to him on a question of such prime importance as that involved in Imperial naval defence. Westliche Canada Post is a paper printed in German in Vancouver, and it repudiates the idea that British Columbia should assent to the building of a Dreadnought. The Deutsche Tages Zeitung, printed in Berlin, quotes from the Vancouver paper with approval, and says that German colonists in Canada will not submit to money being taken out of their pockets to build ships that may fight against the Fatherland. To this piece of impertinent advice we have two answers to make. One of them is that the German inhabitants of Canada are loyal to the Dominion and the Empire, and will support whatever the majority of the people of Canada determine upon. Under these circumstances it is not necessary to say what the other answer is. There is, we regret to say, some evidence of a determination on the part of certain newspapers to make a political issue out of the question of Imperial defence. We warn those who are doing so that they are making a great error, whether their course is regarded from the standpoint of patriotism or the lower one of party advantage.

IN MEXICO

An election for the vice-presidency of Mexico is pending and feeling is running pretty high. Diaz has been president of that country now for thirty-three years, and he has been an exceedingly able administrator. Serious complaints are being made in the press against the manner in which affairs are carried on. It is alleged that a perfect carnival of graft prevails, that valuable concessions are granted to favorites, that new men are forced out of public life and that there must be a demonstration of popular sentiment now, before the party in power get its clutches too firmly fixed upon the throat of the nation, for it is feared that revolution will be the result if a change is not soon made. It is said that the President has never permitted a free election. He has been six full terms in office and is now serving for a seventh. He is now nearly eighty years of age, and is said to realize keenly the necessity of providing for a successor. At one time he hoped that his son would succeed him, but this seems now to be out of the question owing to the unfitness of the man for the post. It is expected that the vice-president to be elected will be the real head of the government. Two candidates are in the field. One is the present incumbent of the position, Roman Carrol, the other Bernardo Reyes, formerly minister of war. To the support of the latter all the discontented elements are rallying. As indicating how bitter the feeling is it may be mentioned that one of the papers supporting Reyes says: "The nation is tired of Diaz, and wishes him to die." Oddly enough the success of the Young Turk Movement has led the younger generation of Mexicans to make demands for greater freedom. Their platform is: A general reform in the administration, a free press, freedom of franchise, destruction of foreign monopolies, the development of Mexico by Mexicans for Mexicans. There has been some rioting in one or two cities, and more is expected, but it is expected that President Diaz will suppress this ruthlessly. The situation is somewhat serious.

We suppose law is law, but for a city to take advantage of the fact that the seal of a court is not just what it ought to be and refuse to pay an employee is certainly not justice. This happened in Ladysmith.

A contemporary deplets some of the advertising signs which adorn the streets of this city. There are worse things than signboards, although they are bad enough. If indications go for anything these signs are to be more in evidence than ever. One would not mind so much if the posters were not so atrocious. In many other cities these abominations have been greatly restricted. Victoria will get to that point by and bye. Meanwhile there ought to be a sign censor, so that some limit may be fixed to the atrociousness of the pictures. From an advertising point of view we think street posters are of little value, but upon that point perhaps a newspaper ought not to say anything. But we will add that however valuable such advertising may be in some cases, it is worse than useless when the pictures are disgusting.

There is a little book issued by the Canadian Facts Publishing Company of Toronto, which contains five thousand facts about Canada. Most of the "facts" are fact, but there might have been a little better judgment shown on some points. For example, it seems a piece of carelessness to describe the three prairie provinces as Western Canada. One of the "facts" stated is that British Columbia has 7,000 miles of coast line; Vancouver Island has that much. But the feature most open to criticism is the department on population. Too much stress is laid upon the number of Canadians who have gone to the United States. Eight paragraphs are devoted to that topic, which seem to us to be eight too many. There is not a single paragraph in regard to the return of Canadians.

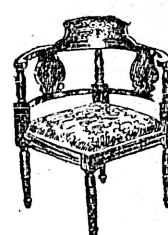

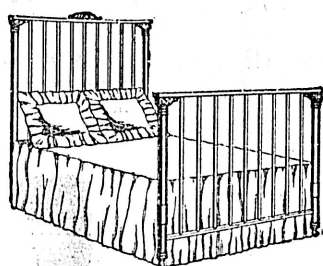

WEILER BROS.
Home Furnishers Since '62

Price is not a safe thing to reckon on; reputation and known quality are. Weiler quality has built a reputation that has permitted us to remain in business at Victoria since 1862.

WEILER BROS.
Home Furnishers Since '62

Victoria's Fairest Prices---Always

Unsurpassed Values All the Year 'Round---In Superior Merchandise

Economical Home Furnishings in Great Variety and Choice of Price

THERE are a thousand thrills in this store for every woman or man, who keeps eyes, ears and intellect open, for the home owner who delights in having good furniture and furnishings in the home. When you know the furniture, the carpets and the hangings are good—the best to be had for the price paid—the more thrills of pleasure you will get from them—from your home. And you are sure these are good—if you get them from the Weiler shop.

We believe that the dealer owes it to himself to know and feel that what he tells his customers is absolutely true—we have always believed it, and there you have one secret of our success. We make it a point to know the merchandise before we ask you to buy it.

Another success reason is the fact that we believe in being frank and honest with prospective customers. We tell them frankly that we don't pretend to sell the "cheapest" home furnishings and we tell them just as honestly that we can save them money on their home furnishing appropriation. Let the goods and the price tickets do the talking. See the new furniture arrivals—priced to emphasize the fact that here you'll find "Victoria's fairest prices—always."

Sensible Souvenirs of Your Stay in Town

¶ This stock of ours is so pregnant with suggestions in the souvenir line, that it is quite impossible to itemize. It is a huge exhibition of souvenirs—that's what.

¶ Not showy, unsubstantial things, gimcracks or gewgaws, but—artistic bits of decorated china, useful and decorative, such as you will delight in keeping.

¶ Lots of little-priced things, which can be safely carried.

¶ Come in! You're truly welcome.

EVER SEEN THESE RUGS

Rich Oriental Effects At Little Prices

News of the World in Brief

PROVINCIAL

Suicide at Cannery.

Vancouver, Aug. 2.—Frank Davis, aged 28, whose parents live in Ottawa, shot himself today at Western Island cannery, where he was bookkeeper. No explanation of the supposed suicide is given.

Dies From Wound.

Vancouver, Aug. 2.—William J. Dodds, the C. P. R. fireman who last Tuesday accidentally shot himself while loading a revolver in his room at 1274 Granville street, died at St. Paul's hospital this morning. The remains have been taken to the undertaking rooms of Center & Hanna.

Accused of Theft.

Vancouver, Aug. 2.—Henry B. Walte, who was arrested on Saturday night for being drunk proved to be a lucky capture, for word has been received that he is wanted in Ladysmith for the alleged theft of \$70. An officer from that city is en route here to take Walte back. In police court this morning Magistrate Williams fined Walte \$2.50 and costs on the drunk charge.

The Ferocious Auto.

Vancouver, Aug. 2.—For speeding his automobile out in Kitsilano a few days ago, Harry Hooper was fined \$5 and costs by Magistrate Williams, before whom he appeared this morning. Information was laid by Edgar Bloomfield, a Kitsilano resident, who informed the court that Hooper drove his machine 250 per hour. The rate of speed allowed is 10 miles per hour. Mr. Bloomfield said he believed a \$5 fine insufficient, and that if speeding was not stopped out there a fatality would surely result.

Pioneer Miner Passes Away.

Princeton, Aug. 2.—The fast thinning ranks of the old argonauts who came to British Columbia in the early days was lessened by one on Monday night in the death of Charles DeBarro, at the home of his old friend, D. McKay, Otter Valley. The deceased was one of the first placer miners on Granite Creek and struck it rich. He went to South America and South Africa in search of bigger diggings, spending most of his little fortune, returning to Granite Creek in broken health, which he never regained.

Alleged Murderer Recaptured.

Ashcroft, Aug. 2.—Ernest Louis, the Indian who some time ago broke jail at Clinton while awaiting trial on a charge of having murdered a Chinaman at Dog Creek several months ago, was captured on Tuesday near the scene of the crime. The arrest was effected by Provincial Constable Fitzgerald of Lytton. The accused is now in jail at Kamloops, where he will be held till the opening of the assizes at Clinton on Oct. 5. A reward of \$250 was offered by the government for the capture of Ernest Louis and friends of the murdered Chinese also offered a reward.

"Shoot Hat First."

Vancouver, Aug. 2.—The police who rounded up a drunken crowd of Indians Saturday night told an interesting story this morning of the bravery of Charley Douglas, one of the Indians, who when the police reached the camp was belaboring a copperhead companion over the head with a piece of iron. When a policeman bore down on Charley the latter drew a bottle of whiskey out of his pocket and smashed it over the officer's shoulder. Then he ran a short distance and stopped when he saw the officer had drawn a revolver. Taking off his hat Charley remarked: "You no good shot. You shoot hat first." Charley started to run again, but was tak-

on captive before he got many yards away. Magistrate Williams this morning sentenced him to three months imprisonment for resisting an officer but a charge of having whiskey in his possession could not be proven because no whiskey could be introduced in evidence. It had been spilled on the policeman during the fight. Felix James and Dan Paul, two other Indians of the party, were fined \$5 each for being in a state of intoxication. Peter Messin, who was charged with supplying the redmen with the firewater, was fined \$100 and costs and in default must serve two months in jail.

CANADIAN

Cairnrag Complete Wreck.

Halifax, Aug. 2.—Steamer Cairnrag, wrecked on Dover Island, last week, has broken in two.

Icelanders Celebrate.

Winnipeg, Aug. 2.—Four thousand Icelanders of the city celebrated their national holiday at a picnic at River Park today.

Clairvoyant's Idle Tale.

Montreal, Aug. 2.—Diver Mackay, who went to Montfort Lake last week to search for the body of Louis Fortier, as the outcome of a statement by a clairvoyant that Fortier had met with foul play, has returned after a thorough search of the lake. He says there is no sign of a body in the lake.

Lake Steamer's Mishap.

Port Colborne, Ont., Aug. 2.—The steamer Glen Eliah, of the Inland Navigation company, bound from Montreal to Fort William, with general cargo, while going out of the harbor this morning, struck the east breakwater, badly damaging her bow, also displacing a portion of the breakwater wall.

Crop Report Optimistic.

Winnipeg, Aug. 2.—The Canadian Northern railway crop report issued today is very optimistic. All crops are in fine condition. Barley cutting has started, and will be in full swing in a few days. Wheat cutting in Southern Manitoba will start about the tenth of the month.

Customs Receipts Increase.

Ottawa, Aug. 2.—Customs receipts for July show a continuance of the rapid increase of imports and a return to the record levels established in 1907. Receipts for the month totalled \$4,913,516, an increase of \$1,180,297 over the corresponding month last year, and less than half a million behind the figures of July, 1907. For the first four months of the financial year the receipts were \$18,003,153, an increase of \$3,544,408 over last year's figures.

Locomotive Firemen.

Winnipeg, Aug. 2.—From Texas, California, Massachusetts, Ohio, Nevada, Oregon, Louisiana, New York, Ontario, and New Brunswick, and in fact from all parts of the United States and Canada, delegates of the Brotherhood of Locomotive Firemen are fast arriving in the city for their convention, which commences tomorrow. Three thousand delegates have already arrived, and many more will reach here by the morning trains. F. A. Ball, of Brantford, Ont., vice-president, will preside.

Stealing From Cars.

Brandon, Man., Aug. 2.—Three men arrested at midnight in the C. P. R. car is the culmination of a series of robberies from the company's cars extending over several months. The prisoners are Davide Lambert, Chas.

Hunter, and Chas. Cowdell. The arrests were made by Chief St. John and Constable Mends, of the Canadian Pacific secret service. The total peculations reach into thousands. Lambert and Hunter were city workmen, and worked in with Cowdell, who is a drayman. Canadian Northern cars here have also been broken into and pilfered, chiefly of groceries and provisions, apparently by the same gang.

BRITISH

Emigration to Canada.

London, August 2.—Emigrants to Canada during June numbered 8,115, against 7,768 last year.

Mr. Brodeur's View.

London, August 2.—Speaking today on the Times suggestion of a cruiser squadron, Hon. L. P. Brodeur was emphatic in asserting that if it aimed at the foundation of an imperial squadron to be controlled by the Admiralty, then it would be only losing time for the defence conference to discuss it, as Canada would never consent to such control. On another subject, that of lighting the St. Lawrence, Mr. Brodeur was equally emphatic that the Canadian river in that respect was far and away ahead of either the Mersey or the Thames.

Canada's Representatives Abroad.

London, August 2.—It is learned that in order to confirm the official status of Canadian government appointees in foreign countries and place them beyond the restrictive influence of British resident officials, as was attempted in the recent Preston controversy in Japan, which might have seriously affected Canadian trade prospects, the Colonial Office has consented to be the medium through which notification shall be given foreign governments of the appointment of Canadian officials to foreign countries. This, it is understood, is the outcome of recent strong representations made by the Canadian government to the Colonial Office.

FOREIGN

French Aviator Injured.

L'Orient, France, Aug. 2.—While experimenting here today with a new military aeroplane of his invention, Lieut. Cros, of the French army, was caught in a squall and dashed to the ground. He sustained severe injuries to his head.

Campaigned with Greeley.

Elmira, N. Y., Aug. 2.—Dr. Wm. C. Doane, aged 83, died here today. He was one of the committee which wrote the first platform for the Republican party in 1855. Dr. Doane campaigned with Greeley in 1850 and with Lincoln in 1860.

Glidden Tour Protests.

Buffalo, N. Y., Aug. 2.—Protests have been filed with Chairman Power by representatives of the Premier Motor Car Co., and the Moline Motor Car Co., against the award of first prizes of the Glidden tour to the two Pierce Arrow cars. The protests are based on allegations that the Pierce cars were not penalized for the absence of rear lamps.

Fatal Boxing Exhibition.

Provincetown, Mass., Aug. 2.—"It was not a prize-fight, nor a boxing bout, but an exhibition for a moving picture machine," said Admiral Sinton Schroeder today in reference to the death of Hanson H. Foster, a colored messman on the battleship Vermont, last night, after going six rounds with a messmate on Friday evening. The autopsy showed that Foster died of cerebral hemorrhage caused by a blow or fall.

Wall Street Reforms.

New York, Aug. 2.—Carrying out the reforms recommended by Governor Hughes' Wall Street investigating committee, the New York Metal exchange today put into effect the system by which actual sales of metal were made on the floor of the exchange, and resulted in quotations thus being established. The total of transactions today was not large, being estimated at not more than 200 tons.

Recovers Her Wealth.

New York, Aug. 2.—The wealthy handbag bearing the initials "G. L. W." which was found on the excursion steamer City of Worcester, on July 9, was claimed today by Mrs. Grace Livingstone-Wheeler, of Philadelphia. The bag contained \$2,755 in new bills, two gold watches, two diamond rings and other valuables. Mrs. Wheeler was given possession of the bag and its contents, after she had told the amount of money it contained, the numbers of the watches and the other details. George Washington Lincoln, the colored porter on the steamer, who found the handbag, was rewarded with a present of one of the new \$100 bills.

El Paso in Mexico.

Mexico City, Aug. 2.—At the Mexican State Department last night it was said that an old map had been discovered showing that the present site of the city of El Paso was on Mexican soil. Senator Belmont Puga is now in Washington conferring with Anson Mills, a member of the international boundary commission, over the subject. Minister of Foreign Affairs Mariscal says that the Mexican claims are based apparently on fact. The case has been pending for some time and will be settled during the present year. The settlement will be an amicable one, whichever way the decision goes, according to the Mexican department.

A HIDDEN JOKER

Threatens Defeat in the Senate of the Tariff Conference Report.

Washington, D.C., Aug. 2.—With the tariff conference report facing threatened defeat in the Senate on account of an alleged "joker" in the hides and leather compromise, it was decided at 1 p. m. today to reassemble the conference committee for the purpose of preparing an official explanation. The conferees will meet at 2 p. m. today.

When the stomach fails to perform its functions, the bowels become deranged, the liver and the kidneys congested, causing innumerable diseases. The stomach and liver must be restored to a healthy condition, and Chamberlain's Stomach and Liver Tablets can be depended upon to do it. Easy to take, and most effective.

A Lady Is Known By Her Gloves

A great authority once wrote "One third of a woman's allowance should be spent upon her Gloves." In spite of this it is a sad fact that often we see Gloves that cannot be said to be sans reproche worn with a handsome costume. However, the best dressed women are always particular about their Gloves and the famous make of "Dent" invariably pleases them. We offer a fine variety:

DENT'S GAUNTLET GLOVES, per pair.....\$1.15
DENT'S GLACE KID GLOVES, 16-button, perfect fit, black and white, per pair\$2.50
DENT'S KID GLOVES, 12-button, black, white and tan, splendid fit, per pair\$2.00
DENT'S "RUGBY" KID GLOVES, two dome fasteners, the acme of wearing qualities, per pair.....\$1.50
DENT'S KID GLOVES, one Dome Lincoln, per pair.....\$1.00

SMOKE MY CHOICE CIGARS

NEWS OF THE CITY

Library Returns.

In the month of July there were 4492 books borrowed from the Carnegie public library. The average number taken out a day was 173, while the highest number taken out on any one day during the month was 270. Ninety-three new borrowers' cards were issued.

July Marriage Licenses.

During the month of July 153 marriage licenses were issued at the sheriff's office. The majority of these were to parties who came from Seattle and other Sound cities. The number is largely in excess of those issued in July, 1908.

Giant Timothy.

Some specimens of timothy, six feet in height, picked on the flats near Shawanigan Lake, have been presented to the Vancouver Island Development League by B. C. Pettingill, of this city. The usual height of this hay is some three feet.

To Print Second Edition.

The Vancouver Island Development League has asked the provincial government if they will print a second edition of the pamphlet on Vancouver Island and Railway Development, by C. H. Lugin. The government has replied by donating \$500 to the league, which will be used for the above purpose.

Installing More Plant.

All the machinery for the new steam power plant which the B. C. Electric Railway company is installing as an addition to its present steam plant on Store street has arrived from Vancouver. The foundations for the new structure which will be erected at a cost of about \$20,000, have been laid and work on the superstructure will begin at once.

Delegates Coming.

Victoria will be visited by eighteen of the delegates who have been attending the convention of the Union of Canadian Municipalities, just closed at Calgary, Alta. The party will arrive tomorrow, word to that effect having been received by His Worship, Mayor Hall. It is probable that the strangers, the majority of whom are from eastern centres, will be in charge of Alderman John MacMillan, of Vancouver, who is not unknown in this city, his former home.

English Lutherans' First Service

The first services of the English Lutheran church, held in the K. of H. hall yesterday, were encouraging to the pastor in charge. Though the attendance in the morning was not large, the spirit of cordiality and mutual encouragement gave evidence of a live interest on the part of those present. This week arrangements will be made for the organization of a choir so that the morning and evening service may be sung by the congregation. Books for the use of the choir will arrive during the week.

Chinese Editor Coming.

Ng Poon Chew, editor of the Chung Sai Yat Pao, will arrive here tomorrow, and will be one of the speakers at the ceremony to be held by the Chinese Consolidated Benevolent societies on the occasion of the opening of the new Chinese school on Saturday afternoon. Ng Poon Chew is the owner and editor of the Chinese daily published at San Francisco, which has a large circulation among his compatriots on the Pacific coast. He is a capable scholar, and speaks English most fluently.

Celebrated Lecturer.

One of the most remarkable women of the day, Mrs. Annie Besant, is making a lecture tour of the Pacific coast. She is an orator of outstanding ability, a writer and editor of magazines, as well as the publisher of a number of books on Theosophy. Of the latter, the best known, perhaps, are "The Ancient Wisdom," and "Esoteric Christianity." Mrs. Besant will speak in Seattle on August 22 and 23 and on the 24th will be in Vancouver. She has not yet decided to come to Victoria, but a number who are interested will make a strong endeavor to induce her to visit the British Columbia capital.

Alarm System Completed.

The new fire alarm system is now in full working order. The last of the five circuits was connected to the receiving apparatus on Sunday night and exhaustive tests made which indicated that the system was in full working order. By a mistake on the part of the man who was sent out to turn in an alarm from one of the boxes for testing purposes another box number was rung in and the brigade was called out to the corner of Port and Government streets under the impression that a real alarm had been received.

Inaugurates New Fare.

Sunday saw the inauguration of the five cent fare on the Esquimalt line, and hereafter the same fare will be collected from patrons of that line that is paid on other lines in the city. The B. C. Electric company, according to the promise made by its local manager to the board of trade some time ago, brought the new rate into effect, and now an old-time cause of complaint on the part of citizens beyond the city limits in that section has been removed. Hereafter a five cent place or a white or green ticket will carry a passenger from one end of the line to the other, the white ticket, as on other lines, being sold at eight for 25c, and good between the hours of 6 and 9 a.m. and 5 and 7 p.m. The green tickets, six for 25c, are good at all hours. Transfers to any part of the city, of course, are given on the same fare.

Artistic Publication.

The T. N. Hibben company has just placed on the market one of the finest, if not the finest, of booklets illustrating the city of Victoria and as an excellent advertisement of this city's beauty spots nothing better has been seen here. The views are remarkably distinct, and, in fact, as clear as the original photographs from which they were made. The work throughout is artistic, the color effects being particularly good. The views comprise a wide range of the most noted scenes and sights in and about the city, and as a souvenir to send to friends could not be excelled. Important information regarding the city, including Kipling's tribute to Victoria, and the eulogy which E. P. Knight, the famous war correspondent, paid to the city's beautiful suburban drives and country roads, is incorporated in the booklet. As well as showing the relative sizes of Vancouver Island and other noted sections of the globe.

THE WEATHER

Meteorological office, Victoria, B. C., at 8 p. m., August 2, 1909.

SYNOPSIS.

The pressure has increased over the North Pacific slope and the low pressure area in the Prairie provinces has moved eastward and is now central in Manitoba where light showers have fallen; temperatures have been higher east of the Rockies and also in the Pacific states, reaching 100 at Red Bluff, California.

TEMPERATURE.

Contributions to King's Daughters.

All contributing cake or candy for the King's Daughters' garden party today, not able to send direct to "Mount Adelaide," are asked to leave the same in charge of Mrs. Henry Clay before noon.

Somewhat Overtrained.

An overload of hard stuff coupled with a mutual disposition to put it all over the other, created considerable excitement in Tronoe Alley yesterday afternoon about 2:30 o'clock when Henry James Chalmers and J. W. Cullen, steamboat men, came together. Just what was the cause of the trouble did not transpire but the pair will have an opportunity of explaining matters to the magistrate this morning. The fight started in the alley but the appearance of a Superior Blackstock induced the combatants to transfer the scene of conflict to Broad street where they evidently imagined they would not be seen. The stalwart was there also, however, and took the two to the cells.

Had Narrow Escape.

R. D. Perry, a Victoria man who has seen his share of adventure by land and sea, experienced a new thrill yesterday when he came into uncomfortably close contact with a flying auto. Mr. Perry was waiting for a street car and was seated on the bench at the corner of Moxie and Superior streets. A street car approached on Superior street and came to a standstill only a few feet from the curb. Directly on the corner there is a telegraph pole. Suddenly Mr. Perry heard the "chuck" of an automobile and almost immediately a large touring car driven by an elderly man whizzed around the corner at full speed. It seemed impossible to escape a collision and Mr. Perry was expecting a terrific crash when, like a flash, the big motor shot between himself and the telegraph pole, taking his breath away with its close proximity and just shaving his knees by about an inch. Its speed never diminished and it disappeared around the next corner.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Take Hall's Pills for constipation.

The finest reed organ ever imported to this city, at least this is what the organists and musicians who have played on it since its arrival have said, was yesterday delivered to the Christian Scientists' Tabernacle for use at their services. The instrument was specially built for this edifice by the well-known manufacturers, Mason & Hamlin, of Boston, who with doubt are the leading makers of organs in the world today. The instrument was imported by Waitt & Co., who are the sole agents in Victoria.

Next Sunday the Iroquois will stop one hour at Mayne, returning via the pleasure port Canal. Don't miss viewing the wonderful scenery along this route. V. & S. train leaves Victoria 9:45 a.m.

The Newest of Gift Goods Is Deposit

The word is derived from "Deposit" and "Art," and this ware is so called because it consists of fine china and glass on which gold and silver are deposited in artistic designs. The precious metals are burned into the article in such a way as to become part of it, and will not scrape off. Fancy a teaset of white china with a design in pure gold—silver ribbon on an emerald green glass claret jug—cream jugs of white glass and silver, etc. They attract attention at once, they are new, and will prove most acceptable wedding presents.

We shall be pleased to show you these.

BOWES' BLOOD PURIFIER

It is an impure or impoverished condition of the blood which causes nervousness, lack of appetite, insomnia, certain forms of rheumatism, kidney troubles, etc. Impure blood generally shows in the complexion; sallow skin or pimples are an index of this. These troubles can readily be removed by taking Bowes' Blood Purifier, which removes all impurities. Promotes rich, pure blood, which cannot help but give perfect health. \$1 per bottle at this store only.

Sealed tenders will be received by the undersigned up to noon of Monday, September 6th for the grading and bridging of the Alberni branch from the 108th mile to Alberni (27½ miles) to be seen on and after August 7, at the office of Mr. Bainbridge, Division Engineer E. & N. Railway, Victoria, and Mr. H. J. Cambie, Chief Engineer, E. & N. Railway, Vancouver.

The lowest or any tender not necessarily accepted.
R. MARPOLE, Vice-Pres.
Vancouver, B. C., July 20, 1909.

Here and There

Camper's complaint of the very dangerous practice of leaving broken bottles on the beach at Poul Bay. It is said, it is scarcely safe to walk barefoot on the sand or to wade in the water. Picnic parties are guilty of the same carelessness. A few days since what might easily have been a fatal accident was caused by a broken bottle. This thoughtless and idle habit should be stopped. If all mothers who pack picnic baskets insisted that all empty bottles be brought back and broken, it would prevent this mischief. Even little children can be shown how much harm a piece of broken glass may do. If there are a few bad boys who still persist in smashing bottles for fun, they should be severely punished. But this is one of the class of evils that springs from want of thought. If the children at the beaches were organized for the purpose of gathering up any scrap of broken glass there would be little danger of further trouble this season.

The League of Empire of which Lord Tennyson is president and Sir Frederick Pollock an active and influential member, is devoted to the cause of drawing the different parts of the British Empire closer together. How fast this work is progressing the great conference which has just closed and that which is now going on shows. Newspaper editors from all parts of the empire met with those in Great Britain and with one another. It is quite impossible to foresee how great will be the consequence of this meeting in the breaking down of prejudices and the creation of closer sympathy between people of all classes in all the king's dominions. Now the congress for imperial defence is holding its sessions. No possession is so small or distant but the results of the deliberations of this conference will affect its people. But the imperialists are not satisfied with drawing together the great thinkers and men of action of today. They feel that the empire is to last it must be because among, not only the wise and great within its borders, but among the common people there is a spirit of unity and a knowledge of the condition of each part as well as an idea of the greatness of the whole. This League of Empire, is convinced can be best inspired and promoted by beginning with the children. For this purpose it asks the aid and co-operation of all teachers and educational authorities. The plan at present adopted is to induce the children in the schools of the different colonies and of the mother land to correspond with each other. Simple as this plan may seem, it will, if carried out with enthusiasm and thoroughness, be very effective. A good letter brings one person into touch with another as nothing except actual personal contact can. Indeed, we may know a correspondent whom we have not seen much better than the person we meet in a formal way every day. It is this intimate knowledge of the feelings and environment of our overseas cousins that it is so important we should all have. There are few who have not felt a sort of surprise on meeting an Australian, or South African or any other of our kin who are scattered over the world to feel how much he or she is like our most intimate friends and closest relatives. This would scarcely have been the case if we had been in correspondence with them or with others from the same part of the world. But if it is important that we shall feel our nearness to the people of all parts of the empire, it is scarcely less essential that we shall realize the differences between our environment and theirs. In view of the children's letters should be of the greatest use. If they tell one another of their work and of their play the boys and girls will learn in a way they will never forget facts concerning the climate and the production and manner of living of their correspondents. The lessons learned from such letters would be far more deeply impressed than any given by the teacher or read from books. The immigration question shows the need of such intimate knowledge. How much heart-burning and distress might have been avoided years ago or more the people of England understood more of the conditions of life in the middle west of Canada. Would not numbers of the unit have been prevented from leaving home? On the other hand, is it not possible that Canadian employers would have been more patient, more generous and more helpful if they understood how hard the new conditions were for the poor people whose stupidity and want of adaptability made them such undesirable acquisitions to Canada.

But if the letters of schoolboys and schoolgirls are to be of any real use they must be the natural expression of the feelings, the opinions and the knowledge of the writers. These rather than accurate facts the children should be encouraged to write. Their letters should not be transcripts of geographies or guidebooks. And it is here that the tact and the enthusiasm of the teacher will tell. To get the children to write real letters is not an easy task. But the aim should be rather to procure such natural expression than to obtain examples of good English and true statements of facts about the country.

Already about 15,000 boys and girls have begun writing letters to one another in different parts of the empire. Small as this number is, compared with the millions of children in the empire, it is a good beginning. All teachers willing to engage in this work are asked to correspond with Mrs. Ord Marshall, secretary of the League of Empire whose address is Caxton Hall, Westminster, London, S. W., England. The object of the School Link and Correspondence Branch of the Empire League of which Mrs. Marshall is secretary is said to be "to place in communication with one another schools of similar status in different parts of the Empire, and also in like manner to put young people severally in communication with others of corresponding age, tastes and social conditions, so as whilst spreading knowledge to promote sympathy and establish friendship which may be interesting and profitable both to the individuals and to the Empire."

In such work the teachers of Canada will be glad to join. What doubt any of them may have about other projects for the furthering of the Imperial ideals, there can be but one opinion that anything which draws people closer together, which helps to break down prejudices and tends to union should enlist the sympathy not only of every loyal Canadian but of every Christian teacher.

The English suffragettes are not content with working among the women of Great Britain, and of taking all means, lawful and unlawful of furthering their cause there. They have determined, if possible, to rouse the women of this country to a state of rebellion against existing conditions. Already an agitation was at-

tempted in the United States, but without rousing the women to any great pitch of enthusiasm. If the newspaper reports are to be trusted.

It is not hard to see why, at least in Canada, women are not ready to make any great sacrifices or even to engage in a bitter struggle in order to gain the franchise. There is here, no great suffering among women workers. There are few idle men. We are not compelled to stand idly by and see children suffer. The evils of the sweating system are scarcely felt. It is easy for us to ask ourselves how the possession of the franchise could affect the labor market so as to give all, and especially women, higher wages. We have not arrived at the point when it is felt that any change must be for the better.

It is true, most women believe there are many things which ought to be improved even in Canada. But we are by no means all agreed that if the men gave us our full share in making the laws we could do more to make the country soberer, purer and more honest than we can now do as mothers, sisters and wives. The earnest women amongst us feel that their hands are very full as it is. Perhaps we hesitate about undertaking fresh responsibilities. Certainly we should not like to see those women who now refuse to bear their share of the burden of life, entrusted with greater power. We are quite contented to think, and to study political problems without at present attempting to do more than fit ourselves for the exercise of the franchise if in the course of events we shall receive it. It is true the International Council of Women voted for woman suffrage, but the majority of the delegates were not Canadian.

But we are not likely to be left in this frame of mind long. Mrs. Pankhurst is coming to America, and an attempt is being made to induce the leader of the British suffragettes to come to America. It is quite likely that a misfortune if this eloquent lady (for we are assured against all reports to the contrary that she is a lady) rouses us from our indifferent attitude and compels us to take a position in one camp or other. It is to be fervently hoped, however, that the women of Canada will not in their advocacy of any cause forget what is due to their womanhood. Whatever doubt there may be concerning the right to vote there is none that in using unbecoming means to gain it we shall lose far more than we gain.

The following description of Mrs. Pankhurst and her mission is taken from the Montreal Star, and will be read with interest by all:

Mrs. Pankhurst is a quiet, dignified, gentlewoman with a decided charm of manner and an undoubted gift of eloquence. Her addresses are usually uttered in a dispassionate and thoroughly judicial tone, and there is absolutely nothing of hysteria in her platform manner. Mrs. Pankhurst is the widow of Dr. Pankhurst, who made the original draft of the Married Woman's Property Bill, which subsequently became law. She has held appointments on several English local boards and in 1903 formed the Women's Social and Political Union as a branch of the labor movement. This organization has been chiefly instrumental in letting the world know that there is an agitation in England in favor of granting the franchise to women. For the purpose of the women's work, there is known that members of the Union and their

friends are going in relays to Holloway jail to vindicate their belief in the justice of their cause. Mrs. Pankhurst is the mother of Miss Christabel Pankhurst, organizer of the militant tactics of the Women's Social and Political Union, and of Miss Sylvia Pankhurst. Like their mother, they have both been to jail a number of times.

Mrs. Pankhurst has not yet joined in the "hunger strikes" that have resulted in the illness and liberation of so many of the political martyrs who have gone to Holloway. When her case was recently called the matter was appealed on the grounds that a woman has the right to present a petition to the crown through the Prime Minister. It is contended, however, that Mrs. Pankhurst's position should pass through the hands of the Home Secretary. The case may not come up until after Mrs. Pankhurst's visit to America.

While in New York it is expected that Mrs. Pankhurst will carry on an energetic "Votes For Women" campaign, her visit being under the auspices of the Equal Suffrage Society and the League of Self Supporting Women. Outside of New York her work will be conducted through the Bond Lyeum Bureau. The campaign will open with a great flourish with a reception at Carnegie hall, New York, to be given in Mrs. Pankhurst's honor.

Already in New York wonderment is expressed as what position the more conservative leaders of the movement, like Mrs. Clarence Mackay, will take in the matter of a militant campaign, and if Mrs. Pankhurst comes to Montreal where practically all women would-be voters are of a conservative turn of mind, the same situation will arise. In the meantime no active steps for a public demonstration are being taken in this city as most of the leaders in the equal suffrage cause are out of town.

After a consultation in Spokane between Superintendent A. G. Larson and Mr. A. J. McMillan, who has been in London for the past four months on a financial mission, it is announced that the LeRo mine will resume within the next few days. A considerable force is now employed getting the plant in shape for resumption. All slot machines in Vancouver are under orders to go.

LOCALS RECEIVE GOOD LESSON

Victoria Lacrosse Players
 Should Follow Example of
 Fast Westminsters

The Victoria lacrosse players have returned from Westminster and the trip to the Fraser river town taught them one good lesson, that is that nothing can be accomplished without good hard practice and plenty of it.

Of the twelve that represented Victoria on the lacrosse field Saturday there were at least half of that amount who had not been out to practice more than once or twice. Had the locals been trained to the minute it is doubtful if the fast team from the other side of the water could have gotten a lead of more than two goals; the senior amateur team of Westminster is made up of good stick handlers all the way, and the amount of training that they do in preparation for a game is not small; for the past three months the amateur team has been holding practices several times a week and invariably they line up against the Minto Cup holders once a week. It is this continual working out of the players that make them the players that they are.

The Victoria stick wielders are going to get in and dig from now on in order to work the present available material into good shape. With defence players like Alex Stevens, Stiles and Crocker the locals have a veritable stronghold; while the home work of Young, Cares and Julian was good in Saturday's game from the opening of the first quarter until the final whistle sounded.

The Victoria team certainly deserve a lot of credit for over-coming the strong defence of the Royals and tallying the seven goals which they registered in the recent match, and it only goes to show what Victoria could produce in the lacrosse line, if the players would only get out and work in the interests of the national game.

The next match will be at Vancouver on August 21st, and from now on the locals will begin to get into shape; practices will be held at the Royal Athletic park on Monday, Wednesday and Friday evenings as well as on Sunday morning, and it is to be hoped that for the upbuilding of the great game in the city the local stick handlers will get out and work for the benefit of lacrosse in Victoria.

Masonic lodges have been instituted at Salmon Arm and Nicola Lake.

Isman Gives Up Deal

New York, Aug. 2.—Felix Isman today announced the failure of the deal whereby the Philadelphia National League Baseball club was to get Mike Donlin from the New York Nationals, in exchange for Outfielder Magee, of the local club. Mr. Isman also announced that he had decided not to exercise his option for the purchase of an interest in the club. He said: "I had an option on certain stock, and would have purchased it if certain ideas of mine could have been carried out. My principal idea was to have Mike Donlin as captain, manager and player. This included the depositing of Mr. Murray as manager. The proposition was to give Murray \$7,500, a year's salary, for him to step down and out. The other owners could not see the matter in this light, and this afternoon I notified the parties to the negotiations that I would not buy the stock."

An unidentified body has been washed ashore near Union Bay.

BIG SWIMMING MEET AT SEATTLE SOON

Seattle, Aug. 2.—One of the greatest aquatic carnivals ever pulled off on the Pacific coast will be held at the A.-Y.-P. exposition on August 24th and there will be swimmers from all over the coast come north to compete. For a number of years the various athletic clubs of the west have endeavored to hold such a contest, but the plan has been too large to be handled.

Entries from all of the athletic clubs of the coast have been received by Major Wm. M. Inglis, director of the Olympics at the exposition. The Olympic club of San Francisco has a large number of excellent speed swimmers. Previous to the exposition meet, that club will hold a big try-out to pick the men who will be entered in Seattle.

Los Angeles also has a number of good men and the athletic club there

is planning on entering contestants in practically all of the events.

The races will be held in front of the exposition bleachers on Union Bay of Lake Washington. There will be every manner of swimming contests, from the sprints to the endurance races. Prizes will also be offered for fancy swimming and diving.

The waters of Lake Washington are excellent for swimming in August. Union Bay is sufficiently shallow to be nicely warmed by the sun, but it is at the same time deep enough for diving.

SHRUBB MAY QUIT GAME AND RETIRE

Alfred Shrubbs, the English long distance running champion may give up Marathon racing. He says he loses about four pounds every time he runs fifteen miles and says "Most people believe that a runner gets leg-weary and tired. It isn't your legs that give out, but your heart. The big load rests there. You can always tell

when a man is getting tired. Just watch his arms. Never mind how fast he is going or how pretty his stride seems, but keep your eye on his arms. That's where the first signs of fatigue will appear every time. When a man begins to give out his arms will droop. If he holds his arms up you can make up your mind that he's all right. I don't think distance races are injurious if the runner is in shape and does not overdo the thing."

Burke Batters Lucas

New York, Aug. 2.—Sailor Burke, the Brooklyn middleweight, battered Fred Lucas, of New York, into a helpless condition at the Bedford Athletic Club tonight. Burke had Lucas on the floor when the bell rang at the end of the first round. Two more knockdowns followed in the second, and Lucas was tottering on the ropes when the referee stopped the fight.

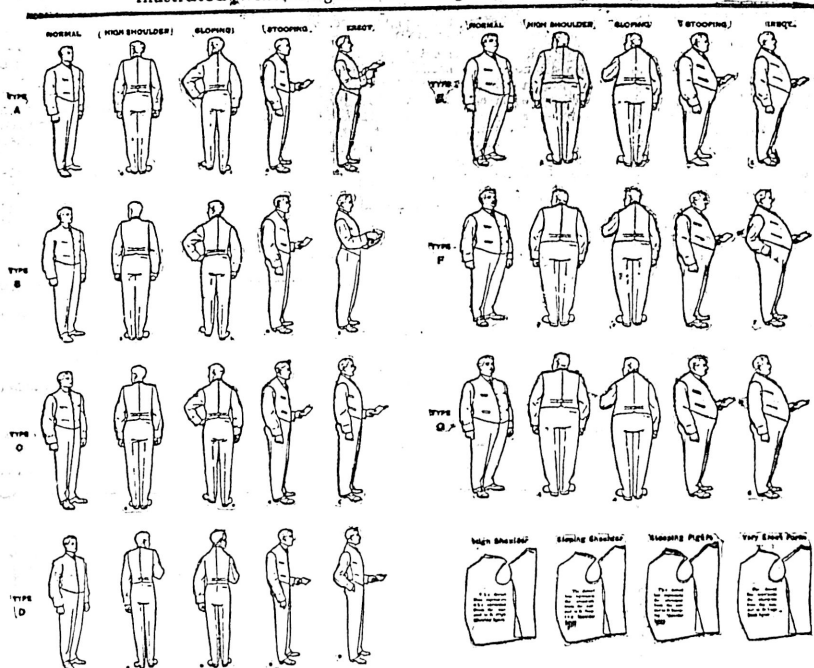

Kamloops has decided upon a considerable enlargement of its lighting system.

What "Semi-ready" Tailoring Means

Semi-ready Physique Types

Illustrated with Diagrams Showing Alterations from Normal

¶ The Seven Types of Men are here illustrated just as they are divided in the Semi-ready Physique Type System of Tailoring—a division of Type which insures a perfect coat design for every man, with every part of the garment in correct harmony of outline.

¶ There are seven distinct types—with Height, the never-changing, as the basic part of the system. There are five variations of each of the Seven Types, and there are fifteen sizes of each variation, or 425 chances to 1 that you can get your type.

The Perfect Type of Man

No two men were ever all alike. When they match at the chest they differ in waist or in length of limb.

Different ways of walking have their effect upon one's carriage. Shoulders never really match. It is impossible to produce clothes which will absolutely fit unless the figure of the wearer is normal, and every man's figure must be specially studied. All properly fitting clothes must possess a corresponding unlikeness.

By the Semi-ready physique type system of tailoring every garment can be quickly finished to shape and to overcome figure defects. The finisher can intensify or diminish height—build out hollow spots, and improve a physique so cleverly that he has to all appearances produced this perfect type.

This four-button Sack is shown in many fabrics at \$15, \$20 and \$25.

JOHNSON AND JEFF
POST REAL MONEY

Berger Says Jeffries Means Business and Will Whip Negro

Chicago, Aug. 2.—Jack Johnson, pugilistic champion, made the retort courteous to Jim Jeffries yesterday by announcing that the latter must, before he leaves for Europe, set a time and place for meeting where articles can be drawn up and other details fixed. Johnson wants to meet Jeffries in person before the two meet in the ring.

Johnson announced that he would post a forfeit of \$5,000 through his manager today. He himself left for Detroit last night. The \$10,000 cheque which he is supposed to have had up has been cancelled. Johnson goes to Toronto next Wednesday and after that to New York where he hopes to meet Jeffries before he sails. Johnson did not seem confident while here that Jeffries would agree to fight, as he believed that his rival would make terms so exacting as to make a meeting between the two impossible.

Jeffries Reply
New York, Aug. 2.—Sam Berger, manager for James J. Jeffries, expressed considerable delight, and said: "Well, I guess there'll be a fight," when informed this evening that Jack Johnson had posted \$5,000 in Chicago today to bind a match with Jeffries for the heavyweight championship.

As to a report that Johnson wants Jeffries to agree to the time and place for the match before the latter goes abroad, Berger said: "How can Jeffries name any time or place for the fight, particularly a place before a bid has been received from a promoter. We would like to know when and where, as well as Johnson, but we are not mind readers."

"If Johnson means business he should come here to New York as soon as the bids for the fight are in, and he and myself will go over them, and anything that looks reasonably good to us both, we will accept."

"Jeffries is dealing with Johnson, and the public in good faith. He only wants what is fair and reasonable. Any other champion—and Jeffries is the real champion—would have demanded 90 per cent. of the gate or purse, but he is good enough to say that Johnson shall have a loser's end. No, I won't say how much it will be. It will repay him for training expenses, even if it does not for the beating he will surely get."

SHORT, SNAPPY SPORT

The Tecumsehs, of Toronto, are playing in good form again, and so far this season the check Eastern lacrosse twelve have lost but one game. They may be out to Westminster this fall, at that.

Bobby Kerr, of Hamilton, lost in the 100 yards to Cartmell yesterday at Belfast. The University of Pennsylvania athlete covered the hundred in ten flat, and won the speedy Canadian boy by a stride. Kerr's distance is the 220.

The Vancouver fans are to be treated to a Marathon Derby on August 20. The race is to be run over the level track at Recreation park.

Tommy Burns writing from Australia, says that Ketchel has no chance with Jack Johnson. According to Tommy, the Michigan Assassin is made to order for Johnson; a few weeks ago John L. Sullivan came out with the statement that the Galveston negro was made to order for Ketchel. The quotation now arises as to whose attitude is the most reliable.

Those North Ward lacrosse players are certainly a credit to Victoria, and it is to be hoped that they will bring together and keep putting up the brand of lacrosse that they display at the present time. So far this season they have won from all the local teams, bested Vancouver's fastest twelve twice, and now they go up to Ladysmith and win out from the husky players of that town.

Sid Winsby, the J. B. A. A. sprinter, is training hard for the championship meet, and will be in his finest form for the big athletic carnival.

The writer is in receipt of a wire from Patsy McKenna, the Vancouver scrapper, wanting a match with Frankie Neil in this city at 124 pounds. Local promoters find it hard to get a permit for a professional fight, so the

prospects for a McKenna-Neil go are not very rosy.

The English cricket team that is to leave for South Africa in November will play three matches in Johannesburg, one each in Cape Town and Durban. Half of the team are amateurs, the balance professionals.

The next big athletic attraction in Victoria will be the fifteen mile race next Tuesday evening between John D. Marsh and Alex Rowan.

The B. C. Amateur Union have decided to include on Saturday's programme of sports a 56 pound weight throwing contest and a standing broad jump.

OTTAWA CRICKETERS WILL
TOUR EASTERN STATES

Ottawa, Aug. 2.—It is probable that the Ottawa Cricket club will send an eleven on a two-weeks' tour to Philadelphia and other cricket centres in the United States next year. The proposition has been before the Ottawa club for some time, all the clubs which came to Ottawa from across the line having invited the locals to return their visits. The Ottawas have now one of the best all-round cricket teams in Canada and the chances are that they will go to Philadelphia in June or July of next year to play a series of games, also visiting the other United States cities where cricket is popular. The details of the trip will not be arranged for some time of course, but Secretary Frank Campbell, of the Ottawas, is already in communication with some of the Philadelphia clubs regarding the proposed tour.

OVERNIGHT ENTRIES

First Race
Five furlongs, purse, 2-year-olds, colts and geldings.

4501—Mr. Huse 110
4502—Terrago 110
4503—Ralph P. D. 113

4538—Margaret Randolph 107

Sixth Race
Six furlongs, selling, 3-year-olds and up.

4539—Irish Mail 106
4540—Nellie Racine 109
4541—Phyllisina 102
4542—Burling 102
4543—Abbey 104
4544—Aftermath 106
4545—Thurber 111

WARDS PLAY LADYSMITH
BASEBALL AND LACROSSE

The North Wards made a double header of the trip to Ladysmith, and after winning the lacrosse match they played a game of ball against the Ladysmith fast nine, which won out by a score of 8 runs to 5. The coal miners had an entirely fresh nine to play against the Wards, who were very tired after the game of lacrosse, in which there was so much rough work. Doc Noel, who played first defence on the lacrosse team, pitched the ball game, and did great work, while Menzies did lots of good effective work behind the bat.

The teams lined up as follows:
North Wards..... Ladysmith.
Menzies..... P..... Bland
Dakers..... 1st..... Delcourt
McGregor..... 2nd..... Steele
Johnson..... 3rd..... Sanderson
Brynjolfson..... s.s..... Gabouri
Hodgson..... l.f..... Morrison
F. Sweeney..... c.f..... Deacon
Humber..... r.f..... Kerr

The case of Arthur Smith, brought back from Seattle to face trial for the burglarizing of the barber shop of his employer, W. D. Berk, of Vancouver, is set for hearing this afternoon. Fifty-one dollars was secured.

As a result of the visit of French capitalists interested in the Bluebell (Ainsworth) mine and other Kootenay properties, considerable French capital will seek investment in the same district this autumn.

TALENT MOANS AT
FAVORITES' STARTS

Joe Coyne and Ed. Ball in Mix-up Were Left at Post

The mile and one-sixteenth race at the Oak Bay track yesterday afternoon, which promised to be the most keenly contested, and by far the best race on the day's card, was spoiled right at the start when Ed. Ball, second choice in the betting, wheeled as the barrier went up, and cutting directly across Joe Coyne the favorite, spoiled both of their chances, and permitted the others who got off flying to gain an advantage that could not be overcome. Dick Dwyer is credited with a bad start, but it is maintained that the above was the reason, and that it occurred after the rise of the barrier. Capt. Burnett, which suffered no interference, got off in front, and staying there the entire journey won by a length and a half, in front of Redwood Second, which was a length in front of Mill Song. Joe Coyne and Ed. Ball were out of the running after the start, although their riders tried their best.

Joe Coyne broke down badly after going seven furlongs, and had to be pulled up. The gelding appeared to be in very bad shape, and the chances are that his racing career is at an end. Belle of Iroquois, won the fifth race, but only through the questionable tactics of W. Kelly, her rider. The Rites mare had a slight lead over Auburndale when nearing the turn on the backstretch, where Kelly, who had the rail, suddenly jerked Belle of Iroquois to the outside with the evident intention of preventing Auburndale from passing him. Kelly's action caused Archibald to pull up Auburndale, in order to avoid a collision. Auburndale lost several lengths and the race. The result might have been different had Kelly gone on about his business. Belle of Iroquois got the race with Auburndale second, a half length in front of Success.

Bellini took the opening race by a length in front of Alder Gulch, the favorite, with Third Chance third.

BASEBALL

All games in the National and American leagues were called off yesterday on account of the funeral of the late President Pulliam of the National League.

Northwestern League.
At Seattle—Portland, 4-4-6; Seattle, 1-6-17.

Spokane—Vancouver, 2-5-1; Spokane, 5-12-0.

Eastern League.
Baltimore, 3-8-2; Montreal, 3-7-2; Providence, 5-8-1; Toronto, 3-10-1; Jersey City and Rochester; Rain. Newark and Buffalo; Rain.

THE COLONIST FORM CHART

VICTORIA, B.C., Monday, Aug. 2, 1909.—50th day. Weather, cloudy. Track fast. F. St. D. Skinner, Presiding Judge.

4901 FIRST RACE—Four and a half furlongs. Purse, Maiden two-year-olds. Value to first \$150.

Ind. Horse	Wt.	St.	¼	½	¾	Str.	Fin.	Jockey.
4823 Bellini	110	2	1 1/4	1 1/2	1 1/2	1	1	Lycourus
4823 Alder Gulch	110	8	2 1/2	2 1/2	2 1/2	2	2	Matthews
4823 Third Chance	110	9	2 1/2	2 1/2	2 1/2	2	2	Keogh
4823 Calopus	112	5	1 5/8	1 1/2	1 1/2	1	1	Brooks
4797 Terrago	110	7	1 5/8	1 1/2	1 1/2	1	1	Archibald
4823 Zinkand	110	4	1 5/8	1 1/2	1 1/2	1	1	Coburn
4823 Matanus	113	1	1 5/8	1 1/2	1 1/2	1	1	Veapen
4813 Alarmed	110	6	1 5/8	1 1/2	1 1/2	1	1	Leeds

At post 1 1/2 minutes. Off at 2:32 1/2. Time—24 1/5; 49 4/5; 1:16 1/5. Winner B. G. Mindore—Bellini. Trained by J. Clifford. Start poor. Won driving. Second same. Third choice. Bellini had the foot and was nicely ridden. Alder Gulch ran a good race under a poor ride. Third Chance ran out or she might have won. Calopus closed well. Others showed little.

4902 SECOND RACE—Six furlongs. Selling. Three-year-olds and upward. Value to first \$150.

Ind. Horse	Wt.	St.	¼	½	¾	Str.	Fin.	Jockey.
4823 Zink Abrams	119	4	1 1/4	1 1/4	1 1/4	1	1	W. Powers
4823 Kelowna	112	5	1 1/4	1 1/4	1 1/4	1	1	Vosper
4823 Banellen	117	8	1 1/4	1 1/4	1 1/4	1	1	Brooks
4797 Terrago	110	7	1 1/4	1 1/4	1 1/4	1	1	Archibald
4823 Golden Wine	117	2	1 1/4	1 1/4	1 1/4	1	1	J. King
4823 Footloose	112	3	1 1/4	1 1/4	1 1/4	1	1	Leeds
4823 Mr. Bishop	112	7	1 1/4	1 1/4	1 1/4	1	1	Lycourus
4823 Golden	117	6	1 1/4	1 1/4	1 1/4	1	1	Archibald

At post 1 1/2 minutes. Off at 2:58 1/2. Time—24 3/5; 49 3/5; 1:16 1/5. Winner B. G. Service or Balgown—Kennessaw Belle. Trained by J. H. Sturgeon. Start good. Won handily. Second and third driving.

Abrams had the speed of this field and outlasted his company. Kelowna closed very stoutly. So did Rama. Banellen lost ground at the last turn, and hung a trifle at the finish.

4903 THIRD RACE—Six furlongs. Selling. Three-year-olds and upward. Value to first \$150.

Ind. Horse	Wt.	St.	¼	½	¾	Str.	Fin.	Jockey.
4876 Ornate	110	1	1 1/4	1 1/4	1 1/4	1	1	Keogh
4876 Chaplet	110	3	1 1/4	1 1/4	1 1/4	1	1	Gaigle
4876 Toby	110	4	1 1/4	1 1/4	1 1/4	1	1	Archibald
4888 Col. Bronston	119	5	1 1/4	1 1/4	1 1/4	1	1	Keogh
4824 Eversence	117	6	1 1/4	1 1/4	1 1/4	1	1	J. King
4875 Ten Row	119	2	1 1/4	1 1/4	1 1/4	1	1	Brooks
4878 Litholin	117	7	1 1/4	1 1/4	1 1/4	1	1	Coburn

At post 1 1/2 minutes. Off at 3:24 1/2. Time—25 1/5; 50 3/5; 1:16 3/5. Winner H. G. Rubicon—Miss Reel. Trained by H. A. Cotton. Start good. Won easily. Second and third driving.

Ornate beat the gate, and leading all the way, won out in clever fashion. Chaplet had no speed but stood a long hard drive very gamely. Toby ran a good race, Bronston outran all the way, and calls for little. Ten Row badly interfered with.

4904 FOURTH RACE—One and a sixteenth miles. Selling. Three-year-olds and upward. Value to first \$150.

Ind. Horse	Wt.	St.	¼	½	¾	Str.	Fin.	Jockey.
4831 Capt. Burnett	109	3	1 1/4	1 1/4	1 1/4	1	1	Lycourus
4823 Milt Song	109	1	1 1/4	1 1/4	1 1/4	1	1	Vosper
4823 Ed. Ball	109	4	1 1/4	1 1/4	1 1/4	1	1	Archibald
4823 Joe Coyne	109	5	1 1/4	1 1/4	1 1/4	1	1	Keogh

*Broke down.
At post 3/4 minute. Off at 3:46 1/2. Time—24 2/5; 49 3/5; 1:15 2/5; 1:42 1/5; 1:45 1/5.

Winner B. G. Rubicon—Miss Reel. Trained by H. A. Cotton. Start good. Won easily. Second and third driving.

Burnett lucky. He got off well, set the pace all the way and stood off Redwood at the end. Redwood ran his race. Milt Song did his best. Ed. Ball ran across Coyne at start, causing both to be left. Coyne made a good run but broke down a furlong out.

4905 FIFTH RACE—Five furlongs. Selling. Four-year-olds and upward. Value to first \$225.

Ind. Horse	Wt.	St.	¼	½	¾	Str.	Fin.	Jockey.
4813 Belle of Iroquois	108	3	1 1/4	1 1/4	1 1/4	1	1	W. Kelly
4824 Auburndale	108	4	1 1/4	1 1/4	1 1/4	1	1	Archibald
4823 Success	108	2	1 1/4	1 1/4	1 1/4	1	1	Lycourus
4879 Belle Kinney	108	1	1 1/4	1 1/4	1 1/4	1	1	Leeds
4800 Koroslainy	108	5	1 1/4	1 1/4	1 1/4	1	1	Keogh

At post 2 minutes. Off at 4:13. Time—24 1/5; 49 2/5; 1:01 3/5. Winner B. G. Ben Stinson—Passion Flower. Trained by J. T. Kue. Start good. Won easily. Second driving.

Belle of Iroquois won quickly to the front, out Auburndale off badly and then lasted it out nicely. Auburndale ran a smart race and without interference could have won. Success ran without blinkers and did not run out as badly as last out. Belle stopped badly.

4906 SIXTH RACE—Seven furlongs. Selling. Three-year-olds and upward. Value to first \$150.

Ind. Horse	Wt.	St.	¼	½	¾	Str.	Fin.	Jockey.
4877 Sam McGibben	129	2	1 1/4	1 1/4	1 1/4	1	1	Archibald
4877 Translucent	129	5	1 1/4	1 1/4	1 1/4	1	1	Brooks
4877 Milt Song	129	1	1 1/4	1 1/4	1 1/4	1	1	Vosper
4850 Cheers	129	4	1 1/4	1 1/4	1 1/4	1	1	Gaigle
4880 Str. Angus	129	6	1 1/4	1 1/4	1 1/4	1	1	Leeds
4786 Medora	120	3	1 1/4	1 1/4	1 1/4	1	1	Coburn

At post 1 1/2 minutes. Off at 4:41. Time—24 1/5; 50; 1:16 2/5; 1:29 3/5. Winner B. G. Rapallo—Rose Carlo. Trained by C. C. Emmott. Start good. Won easily. Second and third driving.

Sam McGibben went into the lead at once and always held his field safe. Translucent came from far back gamely. Milt ran a good race, showing good early speed, fell back and then closed gamely again. Cheers hung right at the end.

MARATHON DERBY
FOR VANCOUVER

Con. Jones Hangs Up \$3,000 Purse for Big Long-distance Race

Con. Jones, the Vancouver promoter, has now a new big athletic attraction for fans in that city in the big Vancouver Derby Marathon which is scheduled to be pulled off on the evening of August 20th, the day before the opening of the race track at Lulu Island.

A purse of \$3,000 has been hung up by the head of the Vancouver Lacrosse club, to be divided into five prizes, and there are expected to be at least a dozen runners facing the start. To go on the long grind of 26 miles and 385 yards.

The race will be run at the Recreation park, and with so many competitors fast time should be made. John D. Marsh, holder of the world's professional record, who is to meet Alex Rowan in this city next Tuesday, has signified his intention of competing. Billy Chandler and Art Burn, who are at present at odds with the manager of the B. C. A. A. U. may turn professional for the big Marathon.

Among the stars who would probably take a crack at the big money are: Fred Meadows, the Guelph runner now in Calgary; J. P. Fitzgerald, the Edmonton runner who beat Meadows on Thursday night at fifteen miles; Paul Acouse, the Saskatchewan Indian; Aleck Rowan, of Nahaimo; Carl Burch, the Norwegian now making Aberdeen his home; William Stanley of San Francisco, who is now in Seattle; Fred Simpson, the Indian runner of Toronto, and Peter Peters, the South Sea Islander, who lives at Tacoma, and probably Art Burn and Billy Chandler, the local amateur runners who are just now in bad standing with the British Columbia Amateur Union. The \$3,000 will be divided into five prizes.

HONOR MEMORY
OF LATE PRESIDENT

National League Directors Attend Funeral of H. C. Pulliam—Mr. Heydler New President

Louisville, Ky., Aug. 2.—About an hour after Harry C. Pulliam, late president of the National League of baseball clubs, was buried today in Cincinnati cemetery, John Heydler of Cincinnati, secretary of the league, was chosen president at a special meeting of the directors. There was some feeling that it was inadvisable to name Mr. Pulliam's successor at this time, but the league's immediate need of a qualified head overcame the qualms.

Besides the electing of Mr. Heydler to fill Mr. Pulliam's unexpired term, the directors concerned themselves only with paying tribute to Mr. Pulliam's memory. They gave the remainder of his salary for 1909, to his estate, and they appointed Garry Herrman of Cincinnati, Barney Dreyfus of Pittsburgh, and Charles Murphy of Chicago as a committee to select and have erected in Cave Hill Cemetery a suitable monument to Mr. Pulliam. They also privileged that all players in the National League shall wear crepe for thirty days. The meeting was attended by four of the five directors, Messrs. Murphy, Dreyfus, Ebbetts, and John Dovey. Garry Herrman will reach Cincinnati tomorrow morning from the west.

Though there was no set eulogy prepared by the committee, each director spoke of Mr. Pulliam as "the squarest man in baseball," and "one who had wielded an influence for the better over the game."

But and ball were laid aside by the professional baseball clubs today out of respect for the memory of Harry C. Pulliam, president of the National League, who was buried at Louisville, Ky., this afternoon. This is the first time in baseball history, it is said, that all sixteen clubs of the National and American Leagues simultaneously refrained from their sport. The New York State league was the only minor organization to call off its games.

John Arnold Heydler, the new president of the National League, has been its secretary since 1900. He was born in Lafayetteville, N. Y., on July 10, 1886. He learned the printing trade in Rochester and later went to Washington, where he was employed by the government. He is popular with club owners, managers and players.

BAR-BILIOUS BILLBOARDS

Vancouver, Wash., Citizens Stand Not on Ceremony in Dealing With Disfigurements.

Vancouver, Wash., Aug. 2.—Disfigurement of this city by hetic billboard advertising must cease, according to the unanimous opinion of the members of the Civic Improvement society, a branch of the Beautiful America league, which is waging a hot fight against the billboard

SOCIAL AND PERSONAL

Mr. and Mrs. George Whittaker, of Tacoma, spent the week-end in town.

Hon. F. I. Carter Cotton returned to Vancouver last night on the Charmer.

E. J. Palmer went over to Vancouver last night on the Charmer.

Miss Love is visiting Mrs. (Dr.) Donovan, Adelaide street.

J. Beverley Robinson, of Toronto, Ont., is a guest at the Empress hotel.

J. M. Shields, of Victoria, was a week end visitor to Shawnigan Lake.

J. B. Paget, of Victoria, was a visitor to Shawnigan Lake last week.

Miss Marion Service is visiting with friends at Victoria West.

Mr. and Mrs. William Enderby, of Toronto, are enjoying a short visit here.

Mrs. and Miss Nandon left last night on an extended visit to friends in Montreal.

George L. Courtney went over to Vancouver yesterday afternoon on a business trip.

Mrs. A. C. Gray, of Vancouver, is spending a few days with her daughter, Mrs. W. H. Cowley.

Miss Elsie Smith, of Nanaimo, is visiting Miss Kathleen Dowdall, Michigan street.

Mrs. Thomas P. Foran and son are visiting the city, and are registered at the Empress hotel.

Mrs. Carr Hilton, of Vancouver, is the guest of Mrs. L. H. Hardie, of Oak Bay avenue for this week.

Mrs. A. J. Woodward left last night on the Charmer on a visit to friends in Vancouver.

Mrs. Oscar Chapman Bass and Miss Eernie Bass are spending the week in Seattle.

Mr. Douglas Buckridge, from Leicestershire, England, is a late arrival from the Old Country.

Miss Ryan, the well known tennis player, was the guest of Mrs. C. E. Pooley last week.

Miss Eberts spent last week in Vancouver, as the guest of Mrs. William White, of Robson street.

E. A. Morris returned to Vancouver last evening on the Charmer after his regular weekly visit to this city.

Mr. and Mrs. A. C. Ansell left yesterday via the Northern Pacific for a visit to Chicago.

John C. Ross left yesterday afternoon via the Northern Pacific for San Francisco, called hither by the serious illness of his brother.

Among Victorians registered at the Shawnigan Lake hotel last week were Mrs. M. Briggs, Alfred Hervey and J. C. Devlin.

A. B. Ellis, accompanied by his wife, made a trip up the E. & N. last week spending a couple of days at the Shawnigan Lake hotel.

Mrs. and Miss Bailey, of 1142 Caledonia avenue, returned home Sunday after spending a very enjoyable time at the fair in Seattle.

Mr. and Mrs. E. H. Harrison, of Winnipeg, left last night for their home in the east, after spending a three weeks' visit on the coast.

Dr. Helen McMurchy, of Toronto, whose work in connection with many charitable institutions is so well known, will arrive in Victoria next week.

W. A. Beake, of E. R. Marvin and Co. who has been rusticiating at Pedder Bay for the past week, accompanied by his wife and family, has returned to the city.

Among the passengers on the Charmer for Vancouver last night were W. N. O'Neill, Major Baker, Miss Hunter, C. Bethune, J. S. Field, A. R. Graham, William Older.

R. J. Bevan, of the firm of Bevan Bros., left Saturday via the C.P.R. on an extended trip to England. He will sail from Montreal on the Lake Manitoba on August 7.

Mr. and Mrs. James Carrington, and the Misses Carrington, of Ottawa, who are at present touring the coast cities will arrive in town tomorrow, and will spend a fortnight here with friends.

Mr. Franz Verder, the well known timber cruiser of this coast, left for Vancouver today, from where he will leave on the steamer Rupert City for

the Queen Charlotte Islands, where he will cruise for about a month's duration for a local lumbering firm.

Geo. T. Mitchell, Miss Rita Mitchell, Mrs. George Mitchell, Miss Kate McGraw, Mrs. John McGraw, Ernest D. Todd, Darrell F. Vincent, Miss M. McKinnon, Miss Effie Alexander, C. F. Schwengels, wife and child, registered at the Shawnigan Lake hotel last week.

Hon. C. Trench, accompanied by Mrs. Trench, Captain H. Trench and H. R. Trench, are registered at the Empress hotel. The Hon. C. Trench is the youngest son of Lord Ashton. He is a brother-in-law of Major Green Wilkinson, of Salt Spring Island.

Mr. and Mrs. Carl Denton, who have been visitors in town for the past fortnight, have left for home. Mr. and Mrs. Denton were married at Albany, Oregon, on the 14th inst., and after visiting and spending a week in Seattle, at the A. Y. P., came on to Victoria. Both Mr. and Mrs. Denton expressed themselves delighted with Victoria and vicinity, and hope at some future date to pay a return visit.

The garden party held on Saturday in aid of the Young Women's Christian Association on the grounds of Mrs. Rattenbury was in every way a great success. The day was fine, and all present enjoyed themselves heartily. Owing to the generosity of the hostess, the whole sum realized will go to the funds of the society. The directors desire to thank Mrs. Rattenbury, the musicians, and all who contributed to the success of the fete for their kindness.

STILL AT ODDS OVER AGREEMENT

Jordan River Scheme Once More Goes Back for Further Consideration

And yet again the proposed agreement between the city and the B. C. Electric company regarding the development of the Jordan River power scheme is held over. Objections made by Ald. Henderson and Fullerton against the latest draft of the much discussed agreement prevented the final passing of the bylaw incorporating

the arrangement by the city council last night and once more the much handled-about contract must go back for further consideration.

At the last session of the council at which the agreement was discussed it was practically accepted except that on the suggestion of Ald. Turner two sections were added, one providing that the city should have the right of generating its own power for civic purposes though not for sale, even if it should have first taken advantage of the company's offer to supply power for the civic purposes at one-half the present rates of generating the city power. This, the company has agreed to and there is evidently no difference regarding that point. But the second clause suggested by Ald. Turner placing a penalty on the company should the latter not complete the works and have the 10,000 horse power available at the Jordan River plant within three years did not at first meet with the company's approbation. Finally a special committee consisting of the mayor, Ald. Turner and the city solicitor, took the matter up with the company's solicitors and new clauses were drafted which were sent to Vancouver and approved. The agreement was returned and in its latest amended form, came before the council last night.

What it Means. It provides that at the earliest opportunity, and in any event within three years from the final passing of the bylaw, the company will erect a plant as near as possible to Victoria and tributary thereto of a capacity of not less than 10,000 horse power, and not less than 10,000 horse power, to cost not less than \$500,000 and machinery shall, from time to time, be installed so as to develop and distribute such power as may be required in extensions to the electric railway, lighting and power undertakings of the company.

When the measure came up for consideration last night, Alderman Henderson asked if the above promise on the part of the company was the same as that contained in the first agreement. Then it was agreed by the company to have, within three years, 10,000 horse power available and there was added, said about "when it is needed" or "that machinery shall be installed from time to time so as to develop power as may be required." Evidently the company did not intend under this latest agreement to develop 10,000 horse power within three years, but merely to develop what was absolutely needed. Alderman Henderson claimed that under the original arrangement between the company and the city the former agreed to have 10,000 horse power ready within three years. True, it might not require that amount, but the fact that it was being developed would mean that the company would have to seek a market for what it could not use. That would mean that the public would benefit.

Plant Will Be There.

Alderman Turner and Mayor Hall stated that the company would certainly put in a plant capable of developing the required 10,000 horse power. That was agreed upon and would be done. But it might easily happen that at the expiration of the three years there would be a demand for, say, 5,000 horse power. What the company would do in that case would be required to install the necessary units to develop more power than is required, though the moment it is required that more power shall be available, the necessary machinery will be installed. It would mean only the placing in operation of additional machinery, which, if installed all at once, would undoubtedly result in a considerable portion, not of the plant, but of minor machinery, standing idle, eating up interest and deteriorating.

It was also pointed out by Alderman Turner that the company agreed to a clause which was inserted to provide that if the company failed to observe any condition or obligation of the agreement it shall be deemed to relieve the corporation from all covenants by it to be observed, if such default shall continue for a period of six months after written notice thereof shall be given by the city to the company. This clause amply protects the city, and the company would not agree to it unless the other clause were amended. However, Alderman Turner pointed out that he did not wish to put through anything inimical to the city's interests, and he suggested that the agreement be laid over in order that all points might be satisfactorily arranged.

Finally after some further discussion this was agreed to, and once again the agreement will be handed back for further amendment.

Sunday Closing Again

After having been held over by the council last Sunday, closing by-law whereby cigar, fruit and candy stores are to be closed on the Sabbath Day was again before the council. At last Monday's meeting it was decided to let the measure rest. Three of the aldermen were absent, and those opposed to the measure were able, for the time being, to sidetrack the measure. But Ald. Raymond's motion, presented last night, to reconsider the decision of the council at the last meeting was carried, only Ald. Hummer voting against it. The amendment proposed by the city barrister was accordingly carried, and now it is up to the courts to decide whether the change in the by-law will be effective. The amendment provides that in all licenses granted by the city the licensee shall agree that he shall be bound by any act of parliament operative in the Dominion. The Lord's Day Act is so operative though it requires the assent of the attorney-general before it can be invoked in British Columbia. The idea behind the amendment, it is said, is not to force the hand of the attorney-general, but in case a licensee refuses to close on Sunday his license will be revoked. Then if he persists in carrying on business without a license. In such a case the city has the right to proceed against him irrespective of any regulation providing for the order of the attorney-general relative to granting an order before a prosecution can be brought.

Ald. Hummer was the only member of the council to vote against the reconsideration of the former motion, and the by-law was put through its final reading and became law. It now remains to be seen just how far this latest change in a measure already condemned by the courts can be made to do service.

The parks board by-law amendment by-law providing for the repeal of the by-law under which the present board holds office, a measure fathered by Ald. Stewart, was also finally passed. Whether the parks board is now supposed to be out of business, and whether the superintendent is no longer an official of the city is a question which was not discussed.

Vernon has sold \$105,000 of waterworks and school debentures at par to the Bank of Montreal.

ANCHOR LINER WARATAH OVERDUE

With Three Hundred Persons on Board
Steamer Is Missing After
Leaving Durban

Durban, Natal, Aug. 2.—The steamer

Waratah of the Blue Anchor line is much overdue with three hundred persons on board and much alarm is felt for her safety. The Waratah left Durban on July 26 and has not yet been reported from Port Elizabeth, her next port of call on the way to Cape Town en route from Sydney to London. The failure to hear any report of the Blue Anchor liner since she sailed a week ago from Durban has resulted in much alarm and steamers have been sent out to make a search for the overdue liner. The general impression is that the Waratah has sustained some accident to her machinery and is adrift, being set upon into the Mozambique channel by the Agulhas current which sets around the southern end of Africa into the South Indian ocean.

The well known Sam Armour ranch on the North Thompson, has been sold to C. F. Paul, an English millionaire, the consideration being upwards of \$40,000.

NEW COAL PORT BEING OPENED

Queen City Brought News That Engineers Were Locating Bunkers at Suquash

SAMPLE SHIPMENT FOR SEATTLE FAIR

Canneries at Rivers Inlet Will Have a Full Pack—North-ern Mine Flooded

Bringing fine-looking samples of smokeless bituminous coal mined at the Suquash mines of the Pacific Coast Mines, Limited, of this city to be exhibited at the Alaska-Yukon-Pacific exposition, a shipment of sacked coal from the mines, salmon and general freight, and sixty passengers from Rivers Inlet and way ports, the steamer Queen City, Capt. Robertson, reached port yesterday morning from the north coast of Vancouver Island. News was brought by the steamer that development work is proceeding rapidly at the Suquash mines, and forty miners are now at work in the tunnel taking out coal.

Engineers are at work locating wharves, bunkers and the short railroad line to carry the coal-laden trucks to salt water, and by next summer it is expected the wharves and bunkers will be in place and steamers calling regularly for bunkers and cargoes of coal. It is expected the bunkers established at Suquash will be larger than those installed at Boat Harbor, from which coal port shipments are now being regularly made by the local mining company, and it is expected that before long the coal company will have its own collieries in service. There is about 500 tons of coal on the dump and tugs call at the place to fill their bunkers. By next summer colliers will be loading at the bunkers to be built there.

Down Fifty Feet.
Mr. Sepman's coal mine, a few miles north of the Suquash mine, has been flooded and operations have had to be suspended until such time as the new machinery is installed. A short time ago Mr. Sepman came down to see-

FOR SALE COTTAGE AND 1-3 ACRE ON The Gorge

WAITERS MUTINIED ON THE PRINCESS

Pummelled Capt. Hickey When He Made Way Into Scene of Carousal by the Window

There was excitement on the three funneled liner Princess Victoria yesterday, when she was on her way from Seattle to Victoria thronged with passengers. Two waiters, William Hatcher and George Bush, who had locked themselves in a cabin, refusing to open when Capt. Hickey knocked at the door, fell upon him, it is stated, when he made his way in through the window, and kicked and pummelled the well-known ship-master, who held his own pretty well, although fighting against odds. The stateroom was a mass of flying arms and feet when the freight clerks forced open the door and came to the captain's assistance.

The waiters, it is alleged, had been drinking, and a passenger assisted them in making merry in one of the staterooms. The steward when he found two of his staff missing at luncheon started to investigate, and located the missing couple with a passenger and a bottle locked in a stateroom. He then informed Capt. Hickey, who promptly started for the scene.

"Open the door," he commanded. "Gwan, twenty-three," said the flunkey, who held the bottle. Capt. Hickey knocked again, and the door was not opened. Then he went away, not to abandon his work, though. He went to the deck outside and slipped up the window and clambered in. As he put his head through the window the drunken company punched at it in a combined effort to beat up the captain. But Capt. Hickey doesn't stop when he starts to do anything, and he forced his way in. The trio kicked at him, struck at him, and there was a pretty rough house for a few minutes, when the freight clerks forced the door and rushed in to assist in securing the drunken company. The waiters were put in irons, and on arrival of the steamer were turned over to Detective O'Leary, and taken to the city lockup in the patrol wagon. They will be hanged with aggravated assault upon Capt. Hickey.

CAPTAIN'S WIFE WAS A HEROINE

Survivors of the Wrecked Steam Schooner Winnebago Reach San Francisco

Survivors of the wrecked steam schooner Winnebago, including Mrs. Treanor, wife of the master, her four children and 22 of the crew, have arrived at San Francisco from Point Arena, where Capt. Treanor is standing by the wreck, on board the schooner Sea Foam. According to stories told by the shipwrecked men, Mrs. Treanor proved herself a heroine during the excitement following the crash of the vessel on the rocks. Standing beside her husband with her youngest child in her arms, the captain's wife displayed no sign of fear as the waves swept over the vessel. By word and deed she helped calm the crew, even after they had taken to the boats and were in danger of being swamped when the Winnebago went down.

ORIENTAL LINERS DUE THIS WEEK

Oceanic and Tango Maru Are Expected—Uarda on Way From Golden Gate

The steamer Oceanic of the Bank line, which is eighteen days out from Yokohama on her way from Manila to this port is fully due and expected to reach port today. The Bank liner is

bringing a general cargo, including a big hemp shipment from the Philippines. The Japanese steamer Tango Maru of the Nippon Yusen Kaisha, inbound from the Orient is also expected to report today. The Japanese liner has 8 passengers and 150 tons of general cargo for this port. The steamer Montague of the C. P. R. is also expected in port this week from Yokohama. The C. P. R. liner is due on Friday. The Blue Funnel line steamer Titan is also on the way from Yokohama and is expected to reach port a day or two after the Montague.

MACKINAW GROUNDED DURING THICK FOG

Was Floated Without Damage After Part of Her Cargo Was Lightened

The steamer Mackinaw reached Seattle on Sunday from Cape Nome and Capt. F. S. Meady said that dense fogs encountered off the northern port were responsible for the grounding of the steamer, as briefly reported by cable. The fogs were encountered sixty miles before entering Unimak pass, which was passed through without getting bearings, and continued until the vessel grounded at 7:40 p. m. on June 29. The first pack of ice was encountered at 6:30 north. The Mackinaw entered it, followed by the Norwegian steamer Varge, which had been sighted to the eastward, and the Mackinaw brought within a quarter of a mile from her. The barge carried a crowd of about 150 Russian Cosacks for Nome. After clearing the first pack, which was about 25 miles wide, a stretch of 10 miles of clear water was passed through, and the second pack was reached. It was while working in this pack that the Mackinaw foundered in shoal water and later grounded in the soft mud. A wireless was sent to the company's agents at St. Michael, who dispatched the Corwin with a lighter to her aid. After 150 tons of her cargo had been taken off, she was able to get off the flats on July 2, after having been stuck 90 hours. Capt. Meady states that the vessel sustained no damage whatever.

TACOMA MARU ENDS INAUGURAL VOYAGE

New Japanese Liner Reached Tacoma and Was Welcomed by Citizens

Completing her maiden voyage, the steamer Tacoma Maru, of the Osaka Shosen Kaisha, reached Tacoma yesterday morning from Hongkong and way ports, with 1,720 tons of general cargo, inaugurating the new Japanese steamship service in conjunction with the Chicago, Milwaukee, and Puget Sound railway. The Tacoma Maru is the first of a fleet of five cargo carriers that are planned to handle the St. Paul traffic. The next sailing is that of the Seattle Maru, a month following the Tacoma Maru. The Seattle Maru will make the city for which it has been named its American port of call, according to arrangements now made. The Chicago

Maru, the third of the fleet, is practically ready to prepare for loading on her initial voyage.

Differing from the business of the Nippon Yusen Kaisha, the Japanese line operating between the Orient and Seattle, in conjunction with the Great Northern railway, the Osaka Shosen Kaisha steamers are exclusively freight carriers. It is possible, however, that other boats to be employed by the company may be fitted with passenger accommodations.

A veteran master with the Osaka Shosen Kaisha, has been selected for the command of the first of the new Puget Sound line, Captain H. Yamamoto, who brought the Tacoma Maru on her initial voyage, was in the same employ for several years on the Shihoro Maru, between Japan and San Francisco. His command consists of eighty-two officers and crew. E. Nakamura, manager in America for the company, arrived yesterday, and will proceed to New York, where permanent offices will be established.

The first cargo of the Tacoma that will be discharged over the new St. Paul docks in Tacoma comprises a general assortment of Oriental ware. Included is 604 bales of raw silk valued at \$325,000, and a new crop tea from Formosa. On her first trip the Tacoma Maru's steaming record is made more favorable by having made two calls that are not proposed to be regularly in the itinerary of the line.

Captain Yamamoto and most of his officers and sailors reside at Osaka, the scene of the recent disastrous fire. News of the holocaust was furnished them upon arrival at Port Townsend, and further details than the cable reports are eagerly awaited. From descriptions of the burned area a num-

ber of the steamer's officers believe that their homes have been destroyed.

DOLAURA COALS FOR TRIP NORTH

Will Carry Earl Grey and Party From Vancouver—Quadra to Carry Servants

The steam yacht Dolaura, which returned to port on Sunday night after coaling at Comox, is being made ready for her trip north with the Governor-General, Earl Grey, and suite, and the D. G. S. Quadra, which was overhauled and renovated for the voyage and given over to a new master for the occasion, is to carry the suite of servants accompanying the party—and the cow. The Governor-General's party is expected to leave Vancouver for Skagway on Thursday.

Moves Offices.

J. H. Greer, head of the Greer fleet of red stack tugboats, has moved his offices from Yates street, where he was located with Messrs. Courtney and Skeene, to the foot of Johnson street, where the paint firm of Newton and Greer is also located.

Nile Comes Instead.

The German ship Nile, reported chartered by Evans, Coleman & Evans, is to replace the British bark Archibald Russell to bring cargo from Glasgow to Victoria and Vancouver. The Nile will leave Glasgow the end of August for the Sound.

Two Sailors Chartered

Though the names of the charterers

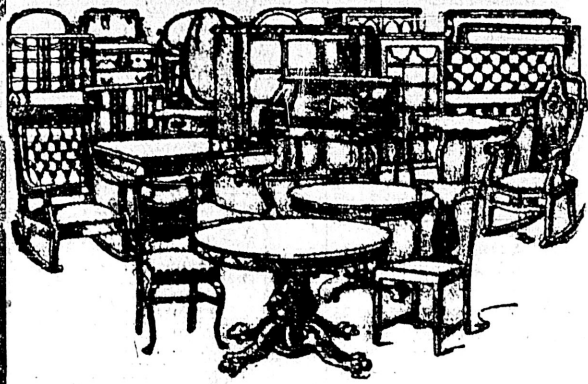

have not been announced, it is reported on good authority that the British bark Celtiburn and the British bark Crompton, lying at Quaternary Harbor, have been fixed to load new crop grain at this port for the United Kingdom. The vessels receive union rates. The British bark Osborne, also at Quaternary Harbor, has already been fixed and is said to have been taken by Kerr, Gifford & Co.

Goes to Hongkong.
Captain McBride, formerly of the steamer Kalanga, who has been appointed port superintendent at Hongkong for the Weir line, left by the Princess Victoria on Sunday afternoon, with his wife and family, to join the Suverie at Vancouver, outbound to the far eastern port.

Yaht Burns.
Port Townsend, August 2.—The auxiliary gasoline cruising yacht Doris, owned by John Nichols, of North Yakima, burned at anchor here early this morning, after a gasoline explosion. Charles Olson, a local boatman, was severely injured in the explosion.

Puritan Coming.
Advices received by Dodwell and Co., agents, state that the British steamer Puritan left Nome for British Columbia on Wednesday last. The Puritan has discharged a cargo of coal in Norton Sound, and is chartered for a return voyage. Last month the collier was seriously crippled in the ice, losing her propeller blades and having a hole stove in her bow. The revenue cutter Thetis towed her into Nome. It is likely that she will require repairs before beginning her second voyage.

AUGUST SALE FURNITURE BARGAINS OF REAL MERIT

Drawing Room Suite, \$82.50

Regular value \$110. August Sale ... **\$82.50**
